

Appendix. The Commercial Customs Operations Advisory Committee (COAC) provides advice to the Secretary of Homeland Security, the Secretary of the Treasury, and the Commissioner of U.S. Customs and Border Protection (CBP) on matters pertaining to the commercial operations of CBP and related functions within the Department of Homeland Security and the Department of the Treasury.

Agenda

The Commercial Customs Operations Advisory Committee (COAC) will hear from the following subcommittees on the topics listed below and then will review, deliberate, provide observations, and formulate recommendations on how to proceed on those topics:

1. The Trade Enforcement and Revenue Collection (TERC) Subcommittee will discuss the progress made on prior TERC recommendations, the Intellectual Property Rights Working Group, Bond Working Group and recommendations from the Antidumping and Countervailing Duty Working Group.

2. The Trusted Trader Subcommittee will discuss their vision for an enhanced Trusted Trader concept that includes engagement with CBP to include relevant partner government agencies with a potential for international interoperability.

3. The Trade Modernization Subcommittee will discuss the progress of the Centers of Excellence and Expertise Uniformity (“Centers”) Working Group. The subcommittee will provide an update on areas they have identified for Centers to develop uniform policies, processes and strategies, with consideration of an industry-focused and account-based approach. The subcommittee will also discuss the progress of the International Engagement and Trade Facilitation Working Group which is identifying examples of best practices in the U.S. and abroad that facilitate trade and could be applied globally. Additionally, the subcommittee will also discuss the formation of a Role of the Broker Working Group to provide updated recommendations for revising 19 CFR 111.

4. The One U.S. Government Subcommittee will discuss progress of the Automated Commercial

Environment (ACE) Single Window efforts and the previous COAC recommendations related to this matter. CBP will respond to the working group’s previous recommendations and suggestions. There will also be an update from the North American Single Window Working Group on developments of the North American Single Window Vision statement.

5. The Exports Subcommittee will discuss the progress of the Air, Ocean, and Rail Manifest Pilots, and the beginning of work planned for the Truck Manifest sub-workgroup, which will be coordinating with the 1 USG North American Single Window (NASW) work group to ensure that the groups are not duplicating work. The Post Departure Filing (PDF) workgroup will be discussing the results of its planned Table Top exercise.

6. The Global Supply Chain Subcommittee will review and discuss recommendations related to the Pipeline Working Group and also provide an update on pilot discussions with industry. In addition, the subcommittee will report on the startup of the Customs-Trade Partnership Against Terrorism (C-TPAT) Working Group that will be reviewing and developing recommendations to update the C-TPAT minimum security criteria. Meeting materials will be available by April 22 2016, at: <http://www.cbp.gov/trade/stakeholder-engagement/coac/coac-public-meetings>.

Dated: April 6, 2016.

Maria Luisa Boyce,
Senior Advisor for Private Sector Engagement,
Office of Trade Relations.

BILLING CODE 9111-14-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of King Laboratories, Inc., as a Commercial Gauger and Laboratory

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of King Laboratories, Inc., as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that King Laboratories, Inc., has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes for the next three years as of September 16, 2015.

DATES: Effective Dates: The accreditation and approval of King Laboratories, Inc., as commercial gauger and laboratory became effective on September 16, 2015. The next triennial inspection date will be scheduled for September 2018.

FOR FURTHER INFORMATION CONTACT: Approved Gauger and Accredited Laboratories Manager, Laboratories and Scientific Services Directorate, U.S. Customs and Border Protection, 1300 Pennsylvania Avenue NW., Suite 1500N, Washington, DC 20229, tel. 202-344-1060.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.12 and 19 CFR 151.13, that King Laboratories, Inc., 1300 E. 223rd St., #401, Carson, CA 90745, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 19 CFR 151.13. King Laboratories, Inc., is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API Chapters	Title
3	Tank Gauging.
7	Temperature Determination.
8	Sampling.
12	Calculation of Petroleum Quantities.
17	Marine Measurement.

King Laboratories, Inc., is accredited for the following laboratory analysis procedures and methods for petroleum and certain petroleum products set forth by the U.S. Customs and Border Protection Laboratory Methods (CBPL) and American Society for Testing and Materials (ASTM):

CBPL No.	ASTM	Title
27-02	ASTM D-1298	Standard Test Method for Density, Relative Density (Specific Gravity), or API Gravity of Crude Petroleum and Liquid Petroleum Products by Hydrometer Method.
27-08	ASTM D-86	Standard Test Method for Distillation of Petroleum Products at Atmospheric Pressure.

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific test or gauger service this entity is accredited or approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please reference the Web site listed below for a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>.

Dated: April 1, 2016.

Ira S. Reese,

Executive Director, Laboratories and Scientific Services Directorate.

BILLING CODE 9111-14-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R6-ES-2015-N189; 60120-1113-0000-C2]

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for Preble's Meadow Jumping Mouse

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability of a draft recovery plan for the Preble's meadow jumping mouse. This species is federally listed as threatened under the Endangered Species Act of 1973, as amended (ESA). The Service solicits review and comment from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before June 10, 2016.

ADDRESSES: Copies of the draft revised recovery plan are available by request from the Colorado Field Office, U.S. Fish and Wildlife Service, PO Box 25486-DFC, Denver, CO 80225; telephone 303-236-4773. Submit comments on the draft recovery plan to the Field Supervisor at this same address. An electronic copy of the draft recovery plan is available at <http://>

www.fws.gov/endangered/species/recovery-plans.html.

FOR FURTHER INFORMATION CONTACT: Field Supervisor, at the above address, or telephone 303-236-4773.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service prepares recovery plans for the federally listed species native to the United States where a plan will promote the conservation of the species. Recovery plans describe site-specific actions necessary for the conservation of the species; establish objective, measurable criteria which, when met, would result in a determination that the species no longer needs the protection of the ESA (16 U.S.C. 1531 *et seq.*); and provide estimates of the time and cost for implementing the needed recovery measures.

The ESA requires recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the ESA, as amended in 1988, requires that public notice and opportunity for public review and comment be provided during recovery plan development. The Service will consider all information received during a public comment period when preparing each new or revised recovery plan for approval. The Service and other Federal agencies also will take these comments into consideration in the course of implementing approved recovery plans. It is our policy to request peer review of recovery plans. We will summarize and respond to the issues raised by the public and peer reviewers in an appendix to the approved recovery plan.

The Preble's meadow jumping mouse (*Zapus hudsonius preblei*), found in foothills riparian habitat from southeastern Wyoming to south central Colorado, was listed as a threatened subspecies under the ESA, effective June 12, 1998 (May 13, 1998; 63 FR 26517). At the time of listing, the subspecies was threatened by habitat alteration, degradation, loss, and fragmentation resulting from urban development, flood control, water development, agriculture, and other human land uses. No range-wide population estimates exist for the subspecies. Numerous surveys conducted in the last decade lead us to believe that there are adequate numbers

and distributions of Preble's meadow jumping mouse populations present today to allow recovery of the subspecies; however, many of these populations face continued threats to their persistence.

The recovery strategy is based upon the assumption that if specific criteria are met for certain existing populations, the Preble's mouse can be recovered. These criteria require that populations are maintained in designated habitats distributed throughout the existing range, the populations and habitats are secure from decline due to existing threats listed above, the populations are self-sustaining and persistent, a long-term management plan and cooperative agreement is completed, and there is effective public involvement.

Request for Public Comments

The Service solicits public comments on the draft recovery plan. All comments received by the date specified in **DATES** will be considered prior to approval of the plan. Written comments and materials regarding the plan should be addressed to the Field Supervisor (see **ADDRESSES** section). Comments and materials received will be available, by appointment, for public inspection during normal business hours at the above address.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: February 25, 2016.

Matt Hogan,

Acting Regional Director, Denver, Colorado.
