

treatment after a few sessions (Knesper et al., 2010). Thus, it is imperative that EDs and inpatient settings link these individuals to follow-up care.

SAMHSA is addressing this need through the NSPL Follow-Up program. The Monitoring of the NSPL will continue to assess whether the NSPL Follow-Up program achieves its intended goals. This revision of the Monitoring of the NSPL represents SAMHSA's desire to expand this process and impacts evaluation to assess follow-up with clients referred to the Lifeline from partnering inpatient hospitals and EDs and continue to improve the methods and standards of service delivery to suicidal individuals receiving crisis center services. This effort will build on information collected through previous and ongoing NSPL evaluations; expand our understanding of the outcomes associated with the NSPL Follow-Up

program; and continue to contribute to the evidence base.

This revision requests approval for the removal of one previously-approved instrument and the continuation and renaming of five previously-approved activities. Six crisis centers funded through the NSPL Follow-Up program in FY 2016 will participate in this effort.

Instrument Removal

Due to the completion of the motivational interviewing/safety planning (MI/SP) training and the fulfillment of data collection goals, the currently-approved MI/SP Counselor Attitudes Questionnaire and its associated burden will be removed.

Instrument and Consent Revisions

Each of the five instruments and consents associated with the Monitoring of the NSPL was previously approved by OMB (No. 0930-0274; Expiration, July 31, 2016). Revisions include the following: (1) The term "caller" will be

replaced with "client" to reflect the change in respondent type to clients referred from partnering EDs and inpatient hospitals rather than callers, and (2) MI/SP will be removed from the titles of all instruments and consents. No other changes are being made.

- The MI/SP Caller Follow-up Interview will be renamed "Client Follow-up Interview."
- The MI/SP Caller Initial Script will be renamed "Client Initial Script."
- The MI/SP Caller Follow-up Consent Script will be renamed "Client Follow-up Consent Script."
- The MI/SP Counselor Follow-up Questionnaire will be renamed "Counselor Follow-up Questionnaire."
- The MI/SP Counselor Consent will be renamed "Counselor Consent."

The estimated response burden to collect this information associated with the Monitoring of the NSPL annualized over the requested 3-year approval period is presented below:

ESTIMATED ANNUALIZED BURDEN

Activity	Number of respondents	Responses per respondent	Total number of responses	Burden per response (hours)	Annual burden (hours) *
Client Initial Script	217	1	217	.08	17
Client Initial Script Refusals	53	1	53	.02	1
Client Follow-up Consent Script	161	1	161	.17	27
Client Follow-up Consent Script Refusals	10	1	10	.03	1
Client Follow-up Interview	160	1	160	.67	107
Client Follow-up Interview Refusals	1	1	1	.25	1
