

Editorial

Dear Readers,

We have another full plate of columns in this issue. These include columns from Mahesh Dodani, Anthony Simons, Conrad Bock, Douglas Lyon, John McGregor, Won Kim and Don Firesmith. We also have another book review by Charles Ashbacher as well.

In addition to these columns we have five feature-length papers with summaries presented next to their links.

Hope you find this last regular issue of 2004 interesting and useful.

Happy holidays!
