Divisions I, II and III Overall	67
Division I	75
Division II	84
Division III	92

INTRODUCTION

INTRODUCTION

For the second consecutive year, the NCAA has compiled the following statistical information regarding student-athlete ethnicity in intercollegiate athletics at its member institutions. This information provides a general view of recent historical trends in participation by gender, sport and division.

In an effort to increase the accuracy of the data and for ease of comparison, the seven ethnicity categories used in this report are the same categories that are defined by the federal government and used in the NCAA Graduation-Rates Reports. More specifically, there are six ethnicity categories (i.e., American Indian/Alaskan Native; Asian/Pacific Islander; Black, Non-Hispanic; Hispanic; Other; and White, Non-Hispanic) and one category for Non-Resident Aliens (i.e., foreign student-athletes). Foreign student-athletes could fall in any of the ethnicity categories (e.g., Black, White, or Asian) but for the purposes of this research, they are considered Non-Resident Aliens because they are not U.S. citizens. This may be a point of confusion for those individuals submitting the data; therefore, fluctuations in the data for Non-Resident Aliens may not necessarily represent any changes in the actual number of student-athletes in this category, but rather fluctuations in the accuracy of the data the NCAA receives.

As with any data collection effort, there were minor errors and omissions in the data collection process. These errors necessitated the estimation of the frequencies of student-athletes within each ethnicity category based on the proportions of student-athletes within each ethnicity category in the observed data. This estimation was possible because of the high response rate and the low error rate. Therefore, the reported percentages and frequencies can be considered good estimations of the actual student-athlete ethnicity data.

It is important to note that the statistics provided by the NCAA in this report are derived from self-reported data supplied by the member institutions. No specific checks were made to verify the information provided by the institutions. While this information provides our best estimate of recent general trends in student-athlete ethnicity, the data may not be absolutely precise.

For sports in which the NCAA does not offer a championship, the data are even less likely to be precise. Institutions are allowed to count a limited number of non-NCAA sports toward their membership minimums, but they may not report student-athlete ethnicity figures for those teams.

Specific questions concerning the statistics included in this report should be directed to the NCAA research staff or public affairs staff at 317/917-6222.
