Job Title: Senior Software Developer
Employer: Club Benchmarking, LLC, 1 Olympic Drive, Methuen, MA 01844
Work Site: 1 Olympic Drive, Methuen, MA 01844

Job Duties: Analyze user needs and software requirements to determine feasibility of design within time and cost constraints. Develop and implement new software programs, including mapping out the development and deployment plan for on-going updates to the tool. Design and update software databases, ensuring database relationships and data integrity. Maintain and improve the performance of existing software. Communicate with management and technical support colleagues to ensure that project schedules and goals are met. Store, retrieve, and manipulate data for analysis of system capabilities and requirements.

Job Requirements:

- Master's Degree in Information Technology.
- Four (4) years of work experience with Full Stack ASP.NET Development (MSSQL, C#, Front End Technologies).
- Four (4) years of experience developing and coding application displays and authentication web displays using C SHARP and JavaScript.
- Four (4) years of experience with designing and developing SQL databases, including architecture design, query optimization, financial data processing and data management.
- Four (4) years of experience in multiple web application front end technologies, API's and frameworks.
- Two (2) years of experience with machine learning technologies and data science techniques.

Place of Employment Information: Telecommuting permitted.
