

Contents

| | |
|--|-----------------|
| <i>Preface</i> | <i>page vii</i> |
| 1 Introduction and Definitions | 1 |
| 1.1 Precision and Accuracy | 2 |
| 1.2 Significant Figures | 3 |
| 1.3 Error Limits | 5 |
| 1.4 Types of Uncertainty or Error | 7 |
| 1.5 Summary | 9 |
| 1.6 Problems | 16 |
| 2 Quick Start: Replicate Error Basics | 20 |
| 2.1 Introduction | 21 |
| 2.2 Data Sampling | 29 |
| 2.3 Replicate Error Limits | 46 |
| 2.4 Significant Figures on Error | 89 |
| 2.5 Summary | 91 |
| 2.6 Problems | 93 |
| 3 Reading Error | 101 |
| 3.1 Sources of Reading Error | 104 |
| 3.2 Standard Reading Error | 117 |
| 3.3 Combining Standard Errors | 123 |
| 3.4 Working with Reading Error | 126 |
| 3.5 Summary | 133 |
| 3.6 Problems | 134 |
| 4 Calibration Error | 138 |
| 4.1 Introduction to Calibration | 142 |
| 4.2 Determination of Calibration Error | 147 |

| | | |
|----------|--|-----|
| 4.3 | Special Considerations at Lower and Upper Performance Limits | 152 |
| 4.4 | Working with Calibration Error | 155 |
| 4.5 | Summary | 176 |
| 4.6 | Problems | 177 |
| 5 | Error Propagation | 181 |
| 5.1 | Introduction | 182 |
| 5.2 | How to Propagate Error | 183 |
| 5.3 | Error Propagation Worksheet | 192 |
| 5.4 | Working with Error Propagation | 197 |
| 5.5 | Summary | 225 |
| 5.6 | Problems | 226 |
| 6 | Model Fitting | 233 |
| 6.1 | Introduction | 234 |
| 6.2 | Least Squares of Linear Models | 235 |
| 6.3 | Least Squares of Polynomial Models | 283 |
| 6.4 | Extensions of Least Squares to Other Models | 298 |
| 6.5 | Least Squares with Physics-Based Models | 303 |
| 6.6 | Summary | 307 |
| 6.7 | Problems | 308 |
| | <i>Appendix A Worksheets for Error Analysis</i> | 315 |
| | <i>Appendix B Significant Figures</i> | 321 |
| | <i>Appendix C Microsoft Excel Functions for Error Analysis</i> | 325 |
| | <i>Appendix D MATLAB Functions for Error Analysis</i> | 328 |
| | <i>Appendix E Statistical Topics</i> | 346 |
| | <i>Appendix F Choosing an Empirical Model</i> | 355 |
| | <i>Bibliography</i> | 366 |
| | <i>Index</i> | 370 |
