

The PACT Act Helps Veterans Access Care

The PACT Act expands healthcare and benefits for veterans:

- Expands access to VA health services for veterans with toxic exposure during their service
- Veterans don't have to prove their service led to illness for 20 more illnesses
- The VA will provide a toxic exposure screening to every veteran enrolled in VA healthcare

"I am proud to represent the more than 16,000 veterans living in California's 44th District. When they signed up to protect this country, they signed and upheld a promise. Now it is on us to keep our end of the promise and fight for our veterans today, tomorrow, and for as long as this great nation stands."

Congresswoman Nanette Barragán
