7ᵗʰ Summer School

19–24 June 2022
Bastia, France

Masses de Données Distribuées

« Scalable Data Analytics »

Topics

- How to conduct experiments
- Data analytics

- Systems, storage and indexing
- Large scale data analytics algorithms

Lectures and Tutorials on

- Novel trends in the database domain: novel challenges
- Heterogeneous data management revisited: from mediators to modern polystores
- Conducting experiments

- Blockchain from a distribution & database perspective
- Augmenting data management with AI & machine learning
- Deploying Deep Learning applications at scale: the database challenge

In/Outdoor activities

- Get together opportunities, trivia and free time (**every day**).
- Exploring in the wonderful area around Bastia.

Swim on data in the Corsican Sea !

CNRS MaDICS Inria *informatiques mathématiques* le cnam

More sponsors to come…
