HELP US BUILD A Thriving Community

Forged by the 1849 gold rush, this area has maintained its sense of rugged independence and natural beauty as it has evolved into a world-class destination for art enthusiasts, outdoor recreationists, foodies, and anyone just wanting to “get away from it all” for a few days. A unique combination of historical landmarks and modern sensibilities, Nevada County is ideally located a mere hour from Sacramento, California’s State Capitol, and two hours from the Bay Area. Nevada County is an easy weekend getaway for a breath of fresh air and a chance to unwind.

In addition, this area is a great place to stop by on your way to Reno or Lake Tahoe, a mere 90 minutes from Grass Valley/ Nevada City, for a bite to eat or some shopping at our local boutiques and galleries on your way to hit the slopes or visit the casino. Being close to two major metropolitan areas, Nevada County is also a popular destination for famous musicians who pop by for a quick performance because they love the area. If you prefer the solitude of nature, there are endless camping, hiking, boating, and biking opportunities that abound here, as well as lodging accommodations to fit any taste, from modern hotels to creek-side suites. Anywhere you go, you will find a friendly face and helpful suggestion, and the food will be delicious! Nevada County has it all, waiting for you to discover your new favorite thing.

## HIKING TRAILS: SPENCEVILLE WILDLIFE AREA

- **Fairy Falls Trail:** Hiking, biking, equestrian. The Old Spenceville Road Trail takes a sharp right at a locked gate, a few hundred yards east of the North Valley Trail. After turning to the right, continue along the old road and through the small wooden gate, up the hill until you arrive at the cattle guard. From this spot, you will have wonderful view of an open, broad, pastoral valley, ringed with oaks and covered with wildflowers in spring and a variety of grasses in the summer. The old road head straight ahead and then to the right, where you will see two trails, the Upper and Lower Loop Trails heading up the hill. If you continue straight along the old road, you will be on the Fairy Falls Trail. This trail follows Dry Creek. You may see the bedrock grinding holes in the flat rocks that line the creek, left by the Nisenan when they ground acorns at the stream's edge. As the old road turns to trail and begins to climb the hill, you will know that you are near the falls.
- **Old Spenceville Road Trail:** Hiking, biking, equestrian. Trail begins at the cement bridge in front of the reclaimed copper mine and runs west and east along Dry Creek. Cross the gated cement bridge and head east (to the right at the mine) along the level dirt road for about a mile until you link up with North Valley Trail and the Falls trails. You will pass rich bird habitat along the road and wildflowers in the spring.

- **Upper Loop Trail:** Hikers only. Take the left trail that climbs the hill from the Fairy Falls Trail. You will wind your way through oaks and past hillsides of lilies in the spring. This trail offers the best long-distance views of the Spenceville area. On a clear day, you can see the Sutter Buttes. This trail links up with the Fairy Falls Trail right near the falls.

## WALKING TOURS: SELF-GUIDED

Grass Valley combines the rich heritage of yesterday and the best of today, offering visitors and history buffs an interesting glimpse into the past. This historic tour begins at the Lola Montez House, today's home to Helping Hands Nurturing Center.

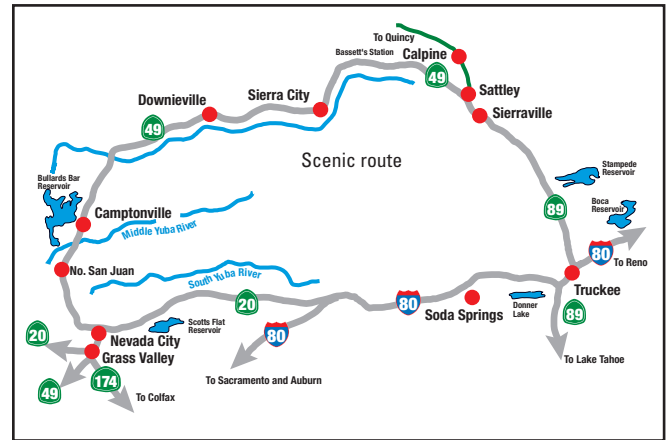

Nevada City is among the most interesting of California Gold Rush towns. For a journey into California's golden history, Nevada City ranks with Northern California's best. First time visitors are attracted by the old mining town appearance. The entire downtown area is listed on the National Register of Historic Places. The historic district includes a total of 93 buildings. Eight individual buildings are also listed on the register and Nevada City contains another 18 state and local landmarks.

- Hirschman's Trail:** Only a mile from the heart of downtown Nevada City, here is a great trail system that gets you quickly out into nature with lots of different things to enjoy. The centerpiece is lovely Hirschman's Pond, named after the Hirschman brothers who were pioneer miners and merchants of the area. The eastern 0.4 mile of trail is constructed to ADA standards, providing barrier-free access to Hirschman's Pond. Highlighting this section of trail is a 40-foot-long trestle that was built to replicate the railroad and flume construction techniques of the late 1800s. West of the pond, the trail narrows and meanders through oak woodlands, pines, and grasslands for an additional 2 miles.
- Deer Creek Tribute Trail:** What better way to explore Deer Creek's rich history and scenic beauty than to follow the Deer Creek Tribute Trail? This multi-use trail is a cultural and ecological path through Nevada City, California. The trail begins in historic downtown Nevada City and moves along scenic backroads and trails. The Tribute Trail is available for picnics,

bicycling, hiking, swimming, fishing, and horseback riding. Walk a portion of the trail and then enjoy downtown Nevada City, or challenge yourself to complete the full 8.6 mile trail.

## DRIVING TOUR: SELF-GUIDED

**Yuba Donner Scenic Byway:** From Grass Valley/Nevada City, take Routes 20, 49, 89, and 80. The 160 mile loop of highways showcases some of the best scenery America has to offer. Among things to do and see along the byway are hiking, skiing, swimming, fishing, camping, picnicking, gold panning, picture taking, sightseeing (there are many museums that tell of the rich gold mining and Emigrant Trail history of the area), rock climbing, boating, golfing, river rafting, dining, shopping, and just plain ol' relaxing. The route includes the historic towns of Nevada City, Truckee, Sierraville, and Downieville. Attractions along the way include historic sites and geological diversity. Driving time: 4 hours.

# FOUR SEASONS

## In Nevada County

### SUMMER

Nevada County boasts hot summer days, perfect for a dip in one of the many quality swimming holes along the South Yuba River. If you're more of a water sports enthusiast, there are plenty of lakes to play in whether your joy is kayaking, jet skiing, fishing, or just lying on the sand and soaking up the sun. Summer days are a joy; but oh, those summer nights! Any day of the week there are countless opportunities for entertainment. You can catch a play at one of our theaters, go to a concert at the Center for the Arts or Miners Foundry, or just wander through downtown Nevada City or Grass Valley and enjoy whichever live music act catches your fancy. Not to mention the many fairs, festivals, and farmers markets that occur weekly.

### AUTUMN

Autumn in Nevada County is a spectacular sight to behold. With foliage that rivals that of New England; everywhere you turn is a new visual delight. The mild days and cool nights make exploring the towns a pleasure, and for a fun family treat, check out Bierwagen's Pumpkin Patch and Harvest Festival which goes on every day in October. If art is your thing, try the Open Studios Art Tour & Sale, or step back in time at the KVMR Celtic Festival. To get into the Halloween spirit, take the Haunted Nevada City historical walking tour, or get a head start on your Christmas shopping at the Thanksgiving Weekend Art Faires.

Photo by Ross Martin

### WINTER

Winter in Nevada County is typically sunny and cold and Grass Valley sits just low enough to get the lovely snow-capped mountain views without the inconvenience of shoveling. Nevada City, however, does get a small accumulation of snow occasionally which turns the darling town even more picturesque.

It is only a 45-minute drive to Donner Summit, and another 15–30 minutes will take you to the Truckee-Lake Tahoe area with cross-country skiing areas, many ski and snowboarding resorts, tubing and sledding areas, and great snowshoeing locations. If you prefer motorized sports, there are places to rent snowmobiles to explore the winter wonderland.

Each year, Downtown Grass Valley hosts Cornish Christmas, Nevada City puts on Victorian Christmas, and Penn Valley has a holiday tradition that features light displays in Western Gateway Park and also has its Cowboy Christmas celebration. Stroll through the streets with old-fashioned carolers in Victorian garb, get some chestnuts right off the fire, and peruse the many items available for sale from our local artisans.

### SPRING

Spring is a riot of color in Nevada County, with many varieties of wildflowers and trees blooming throughout the season, and the redbud, dogwood, and fruit trees flowering everywhere you look. With mild 70-degree days, it's the perfect season to visit Bridgeport at South Yuba State Park; the longest single-span wooden covered bridge still in existence in the US. While you're there, hike the easy Buttermilk Bend Trail for a stunning view of the wildflowers, butterflies, and South Yuba River. If nature's not your thing, stay in town for the Foothills Celebration, an annual wine and art event, or St. Piran's Day Celebration which celebrates Grass Valley's Cornish heritage.

# Nevada County— State Cultural Districts

## PART OF 14 STATE CULTURAL DISTRICTS

Nevada County is the only rural county in California which is home to two State-designated Cultural Districts. They are part of a small pilot group of districts throughout California!

Grass Valley-Nevada City Cultural District and Truckee Cultural District have been selected as two of California's premier state-designated cultural districts under California Arts Council's Cultural District Program. They join twelve other districts that are launching the innovative new program highlighting thriving cultural diversity and unique artistic identities within California, home to the country's leading creative economy.

A cultural district, as outlined by the program, is a well-defined geographic area with a high concentration of cultural resources and activities. The fourteen districts that comprise the program's first group were selected with variety in mind, intended to help tailor the program to meet the complex needs of a state kaleidoscopic in nature.
