Who should read this notice?

In 2020, three parents and guardians of children enrolled in New York City schools, along with Coalition for the Homeless, sued the City of New York in a federal class action lawsuit called E.G. et al. v. City of New York, et al., 1:20-cv-09879 (AJN). This is a class action case, which means that it was brought on behalf of a group of people who had the same problem. Both sides in the case have come up with a plan to fix the problem and have asked the judge to approve their plan, which is called a settlement. In the settlement, New York City agreed to install WiFi in shelters with families with minor children to make sure students living in those shelters can connect to the internet for remote learning. New York City must also make sure students can get access to the internet while it is installing WiFi at the shelters.

Who is a Class member?

You are a Class member and covered by this settlement if:

1. you are a 3-K to 12th grade student, or custodial parent or guardian of a student, enrolled in any school, whether public or non-public; **AND**
2. you are currently living in a DHS Families with Children Shelter or HRA Domestic Violence Shelter **OR** you lived in such shelters any time from March 26, 2020 through the present; **AND**
3. you did not have reliable internet access inside the shelter at any time from March 26, 2020, to present.

What is in the settlement?

Note: This notice contains a summary of the settlement and does not describe all the details.

1. *WiFi installation:* The City of New York agreed to install WiFi in buildings that will operate as DHS Families with Children Shelters and HRA Domestic Violence Shelters to provide students with better access to the internet for remote learning. The City will complete WiFi installation at applicable shelter sites no later than August 31, 2021, unless a delay is caused by factors beyond the City's control.
2. *Signage about how to get help:* The City will work with shelters to continue posting signs notifying shelter residents of how they can get help connecting to the internet from the DOE Helpdesk and other technical support. These signs will be available in many different languages. The City will also work with shelter providers to provide each resident a fact sheet about how students and parents can contact the DOE Helpdesk for support. The DOE Helpdesk number is (718) 935-5108.

3. *Outreach and technical support:*

Shelter case managers will discuss any internet issues during regular check-ins with clients. If families report an issue to the Helpdesk about a DOE-issued iPad, the City will reach out to them and do their best to resolve the issue, such as replacing the iPad or hotspot.
