CITYWIDE TRENDS

- New York City’s population declined in 2021, continuing recent population trends and exacerbated by the COVID-19 pandemic.
- NYC’s public school enrollment experienced a parallel dip in the last two years.
- As the city continues to recover from the COVID-19 pandemic, the DOE remains committed to thoughtful collaboration with districts and communities to collectively strengthen schools and support students and families.

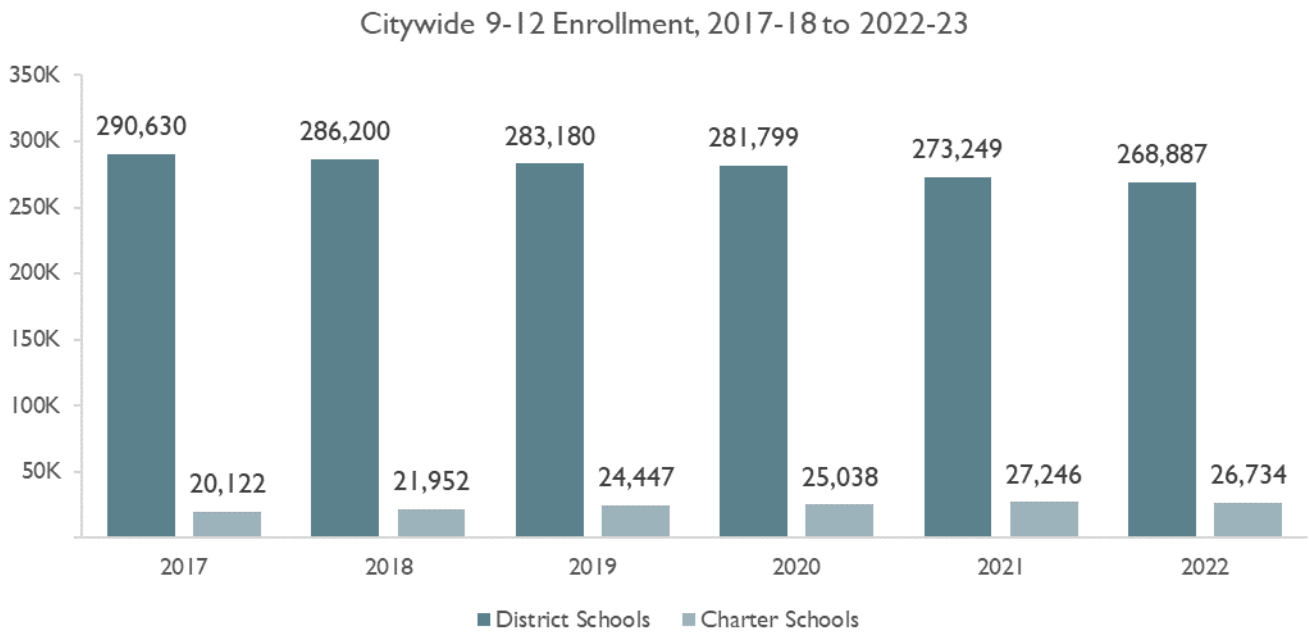

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about 10% since its peak in the 2016-2017 school year.

CITYWIDE 9-12 ENROLLMENT (DISTRICT AND CHARTER), 2016-17 TO 2021-22

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- Although K-12 school enrollment in district 1-32 and charter schools has declined by about 11% since the 2017-2018 school year, high school enrollment has declined by only 5% during this time.

DISTRICT PLANNING PROCESS

RECENT SCHOOL CHANGES

- The Office of District Planning partners with superintendents and communities to address district needs in accordance with Chancellor’s Regulation A-190.
 - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
 - How might recent changes affect district/borough needs as they are implemented? Do they address key needs and priorities?
 - What other school changes should be considered?

ENROLLMENT

UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, make hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
 - What has happened to borough enrollment over the last six years overall? Are there notable trends?
 - Are students remaining in the borough to attend school? If not, where are they going?
 - Are students residing in other boroughs enrolling in large numbers?

BROOKLYN ENROLLMENT, 2017-18 TO 2022-23

Source: Audited Register; includes district 1-32 schools only

- Over the past five school years, enrollment at high schools in Brooklyn has decreased by 3,929 students (approximately -5%).

- The additions anticipated to be completed in the coming years allow for the opportunity to alleviate over-utilization across Brooklyn and, specifically, at Medgar Evers College Prep, a high-demand high-school option in District 17.

BUILDINGS & CAPACITY

SCHOOL & BUILDING UTILIZATION

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Planning to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each DOE building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
 - Is over- or under-utilization concentrated in certain districts or particular areas?
 - Are there overcrowded buildings that need to be alleviated? What is enrollment like for schools in these buildings?
 - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

- There are 110 buildings in Brooklyn serving high school students.
- 57 DOE buildings located in Brooklyn with high school students are under-utilized, meaning there is an excess of seats in these buildings.
 - District Planning works collaboratively with communities to identify how to optimize excess space in buildings, including adding programming where demand aligns to space.
- 16 buildings with high school students are over-utilized, which suggests there may be crowding and/or space challenges at those schools.

- Utilization rates do not always capture the full narrative of space in a building but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add new schools or programming.
- Other buildings have significant excess seats and rooms.
- These could be candidates to address pressing district needs, including adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) Nest and Horizon programs, and/or other district needs where demand aligns.

DISTRICT 75 SEAT NEED

District 75

- NYCDOE’s District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
 - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
 - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
 - Does the district have a need for more District 75 seats?
 - Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?
