CITYWIDE TRENDS

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about 12% since its peak in the 2016-2017 school year, exacerbated by population changes during the COVID-19 pandemic.

## DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor’s Regulations A-185 and A-190.
  - **Chancellor’s Regulation A-185** governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
  - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
  - How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
  - What other school changes could be considered?

## CHANGES IN DISTRICT – 2020-21 TO 2023-24

Implementation Year	Change Type	Description	Impacted DBN(s)	Impacted Building(s)
2023-24	Grade Expansion	Expansion of Jonas Bronck Academy (10X228) from Grades 6-8 to Grades 6-12 in Building X283	10X228	X283
2023-24	Merger	Merger of P.S. 307 Luisa Pineiro Fuentes School of Science and Discovery (10X307) with P.S. 340 (10X340) in Building X340	10X307,10X340	X340
2022-23	New D75 Site	Co-Location of new District 75 program 75XTBD with M.S. 45 Thomas Giordano (10X045) in X045	75X012	X045
2020-21	New D75 Site	Opening and co-location of 75X469 in X046	75X469	X046
2020-2021	Re-siting	Temporary re-siting of 84X617 in X045	84X617	X045

- Interventions in District 10 for 2023-24 include the merger of two elementary schools (P.S. 307 and P.S. 340) and the expansion of a middle school (Jonas Bronck Academy) to serve grades 6-12.
- In previous years, District 75 sites were added at the elementary and middle school levels.

## DISTRICT ENROLLMENT

### UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
  - What has happened to district enrollment over the last six years overall? By incoming grade (i.e. K and sixth)? Are there notable trends?
  - Are students remaining in the district to attend school? If not, where are they going?

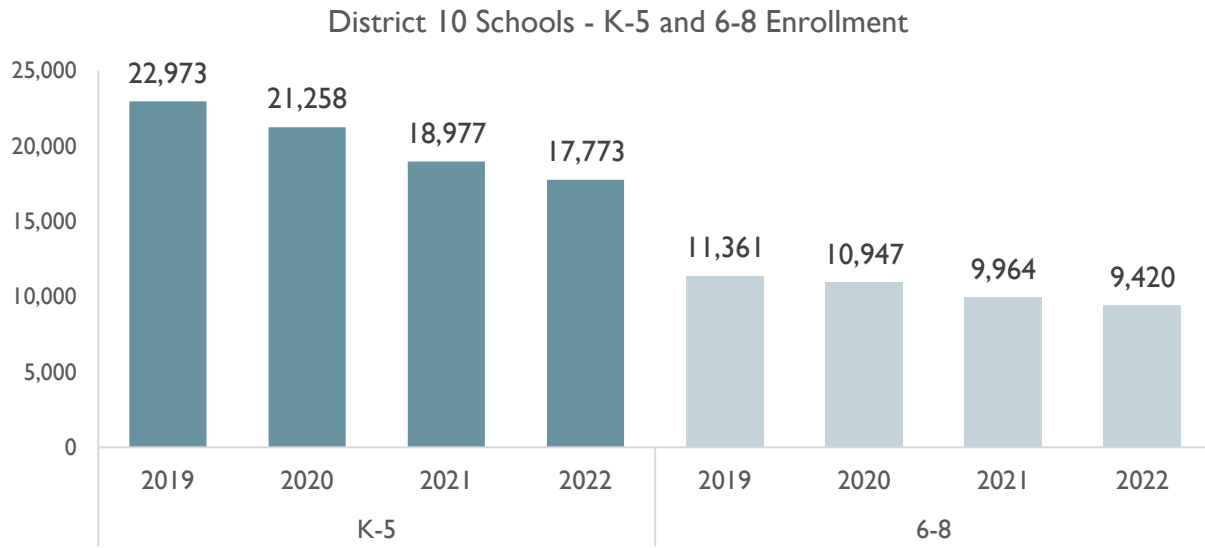

### DISTRICT 10 ENROLLMENT, 2017-18 TO 2022-23

Source: Audited Register; includes enrollment in district schools only

- Over the last five years, total enrollment in District 10 decreased by 20%.
- From the previous school year, total enrollment in District 10 decreased by 5%.
- The decline is sharpest at the elementary school level, where the district has lost 30% of its enrollment in the past five years.
- By contrast, high school enrollment declined by just 8%.

**DISTRICT SCHOOL ENROLLMENT**

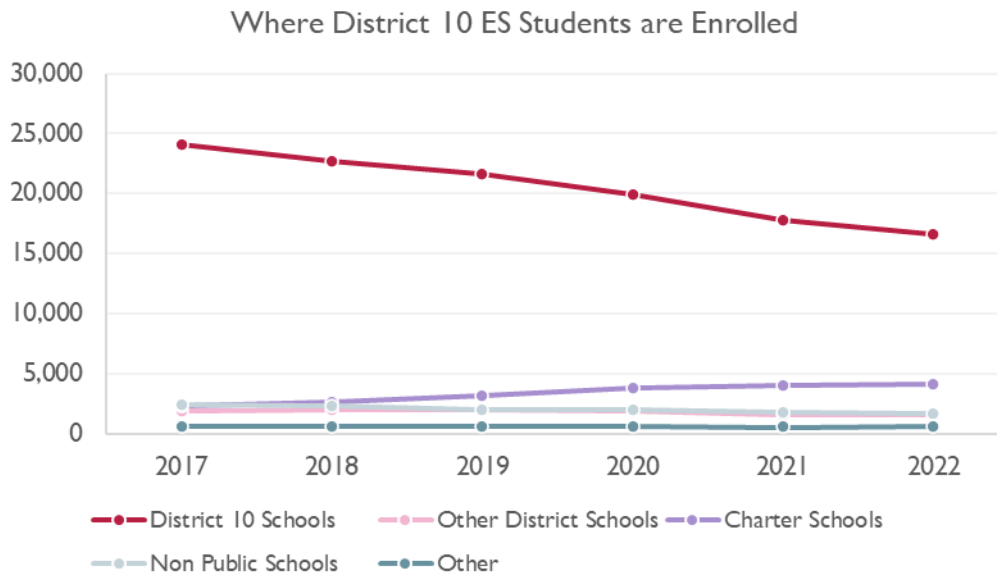

Source: Audited Register; includes enrollment in district schools only

- Since the 2019-2020 school year, district elementary enrollment in District 10 declined by 23%.
- Since the 2019-2020 school year, district middle enrollment in District 10 declined by 17%.

\* For PK-to-K articulation, "Other" includes students discharged to Non-Public Schools and out of NYC.

- The percentage of pre-K students leaving NYC or enrolling in non-district school options for kindergarten increased by 7 percentage points.
- The number of students articulating to district schools decreased significantly, while discharges to non-public schools, charter schools, and out of NYC all decreased slightly.
- The stability of the charter and non-public school numbers stands apart from many other Bronx districts, which have seen these declines along with district school articulation over the past five years.

- There are nine elementary and two middle schools in District 10 in the bottom 25% of enrollment citywide.
- Five elementary schools and one middle school serve fewer than 200 students, and two elementary schools serve fewer than 150 students.
- P.S. 51 serves just 108 students, and its enrollment declined by 46% in the past five years.
- P.S. 307, which lost 41% of its enrollment in the past five years, will merge with P.S. 340 for the 2023-34 school year.

## HIGH DEMAND SCHOOLS IN DISTRICT 10

- The tables below include the highest demand schools at kindergarten and 6th grade in the district based on applications and applications compared to seats.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

Source: Fall 2023 admissions data

- The highest-demand elementary schools in District 10, P.S. 24 and P.S. 81 in Riverdale, P.S. 7 in Kingsbridge, and AmPark Neighborhood School in Van Cortlandt Village, are clustered towards the northwestern portion of the district.
- At the middle school level, Riverdale-Kingsbridge Academy and In-Tech Academy are also in the northwest, but Jonas Bronck Academy and Creston Academy are not.
- Jonas Bronck Academy will expand to serve grades 6-12 beginning in the 2023-2024 school year.

## SEAT DEMAND

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.
- Guiding Questions:
  - Are there certain parts of the district with significant excess space? Areas of crowding or over-utilization?
  - How does projected enrollment compare to capacity and how do we expect that to change over time?
  - Do projections align with current, on-the-ground experience?

## DISTRICT 10 ENROLLMENT

Sources: \* Enrollment for 2017-18 through 2022-23 is based on Audited Register; enrollment for 2023-24 is based on NYCPS register estimates.

- The additions anticipated to be completed in the coming years allow for the opportunity to alleviate over-utilization across District 10.
- District 10 is expected to continue to have excess K-5 seat capacity over the next year.
- Currently, there roughly 3,700 excess seats at the elementary school level and 3,200 excess seats at the middle school level.
- The X283 addition will allow Jonas Bronck Academy to expand the grades it serves from 6-8 to 6-12.
- New building X469 will allow Academy for Personal Leadership and Excellence (10X363) to expand the grades it serves from 6-8 to K-8.

**BUILDINGS & CAPACITY**

**SCHOOL & BUILDING UTILIZATION WITHIN THE DISTRICT**

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
  - Given the current and projected capacity trends presented in the preceding Demand and Capacity section, does the district have sufficient capacity to meet its needs and support its students?
  - Is over- or under-utilization concentrated at a particular grade level? In a particular area?
  - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

**BUILDING SUMMARY**

<i>Remaining TCUs</i>	<i>0</i>	<i>4</i>

Source: Building information from LCGMS. Building utilization categories based on the 2021-2022 Blue Book.

- There are 24 under-utilized buildings in District 10.
- There are 15 buildings over 100% utilized in District 10.

## DISTRICT 10 UNDER-UTILIZED BUILDINGS

Under-utilized Buildings in District 10 with 300+ Excess Seats

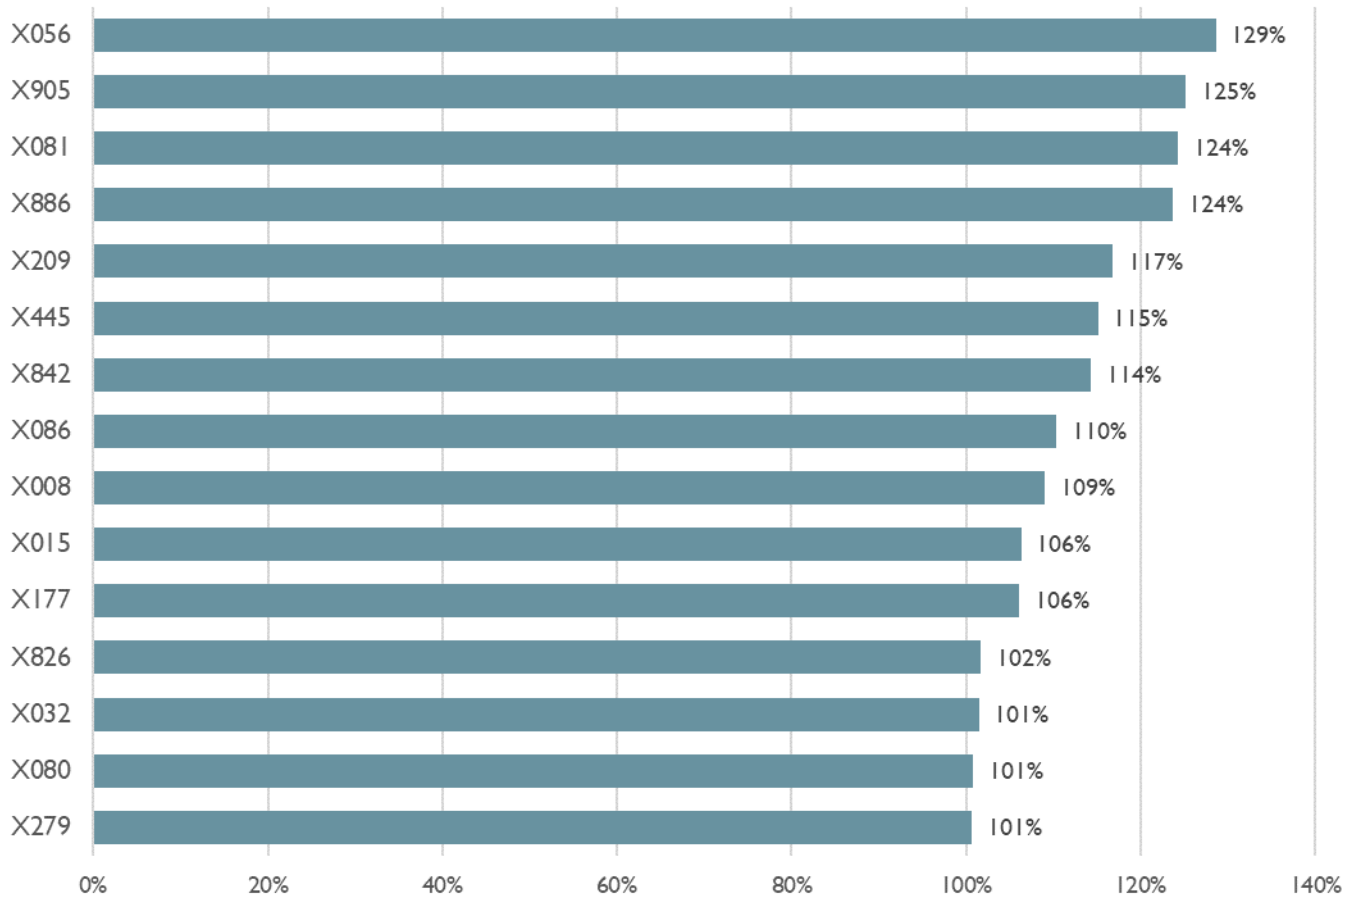

Source: Graph shows enrollment and capacity from 2021-2022 Blue Book; UU status is from the 2022-2023 UU Memo, and accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- Utilization rates do not always capture the full narrative of space in a building, but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- Building X475, the Kennedy High School campus, has over 1,300 excess seats, the most excess space of any building in District 10.
- Building X045 has over 600 excess seats, the most excess space of any building serving grades 6-8.
- Building X046 has 297 excess seats, the most excess space of any building serving grades K-5.

**DISTRICT 10 BUILDINGS OVER 100% UTILIZATION**

Buildings Over 100% Utilization in District 10

Source: 2021-2022 Blue Book

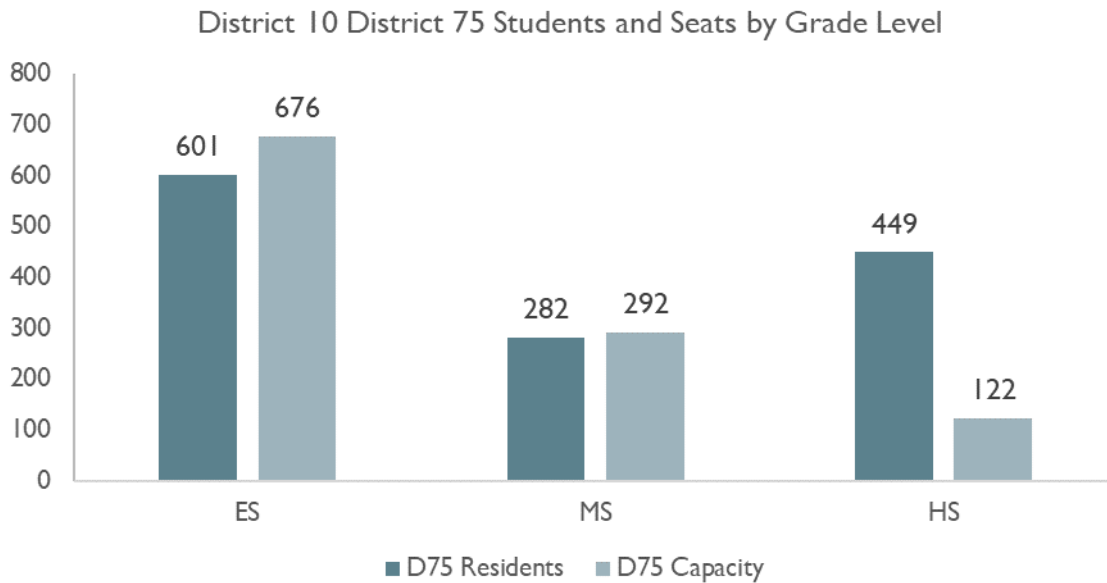

- There are 4 buildings in District 10 that are at least 120% utilized.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.
- An annex opened at X340 in September 2021, alleviating over-utilization and creating the opportunity to merge P.S. 307 with P.S. 340 on the X340 campus.

**TRANSPORTABLE CLASSROOM UNITS (TCUS)**

- There are no TCU's in District 10.

**DISTRICT 75**

- NYCPS's District 75 provides highly specialized instructional support for students with significant challenges, such as ASD, significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
  - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
  - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
  - Does the district have a need for more District 75 seats?
  - Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?

## DEMOGRAPHICS & STUDENT POPULATION

### STUDENTS SERVED IN THE DISTRICT

- Demographic data helps us understand the landscape of a district and the different communities served.
- Guiding Questions:
  - How do the demographics of the district compare to the borough? To the City?
  - Are there any notable trends in the district’s demographics?
  - How the demographics of individual schools compare with other schools in the district?

### RACE/ETHNICITY

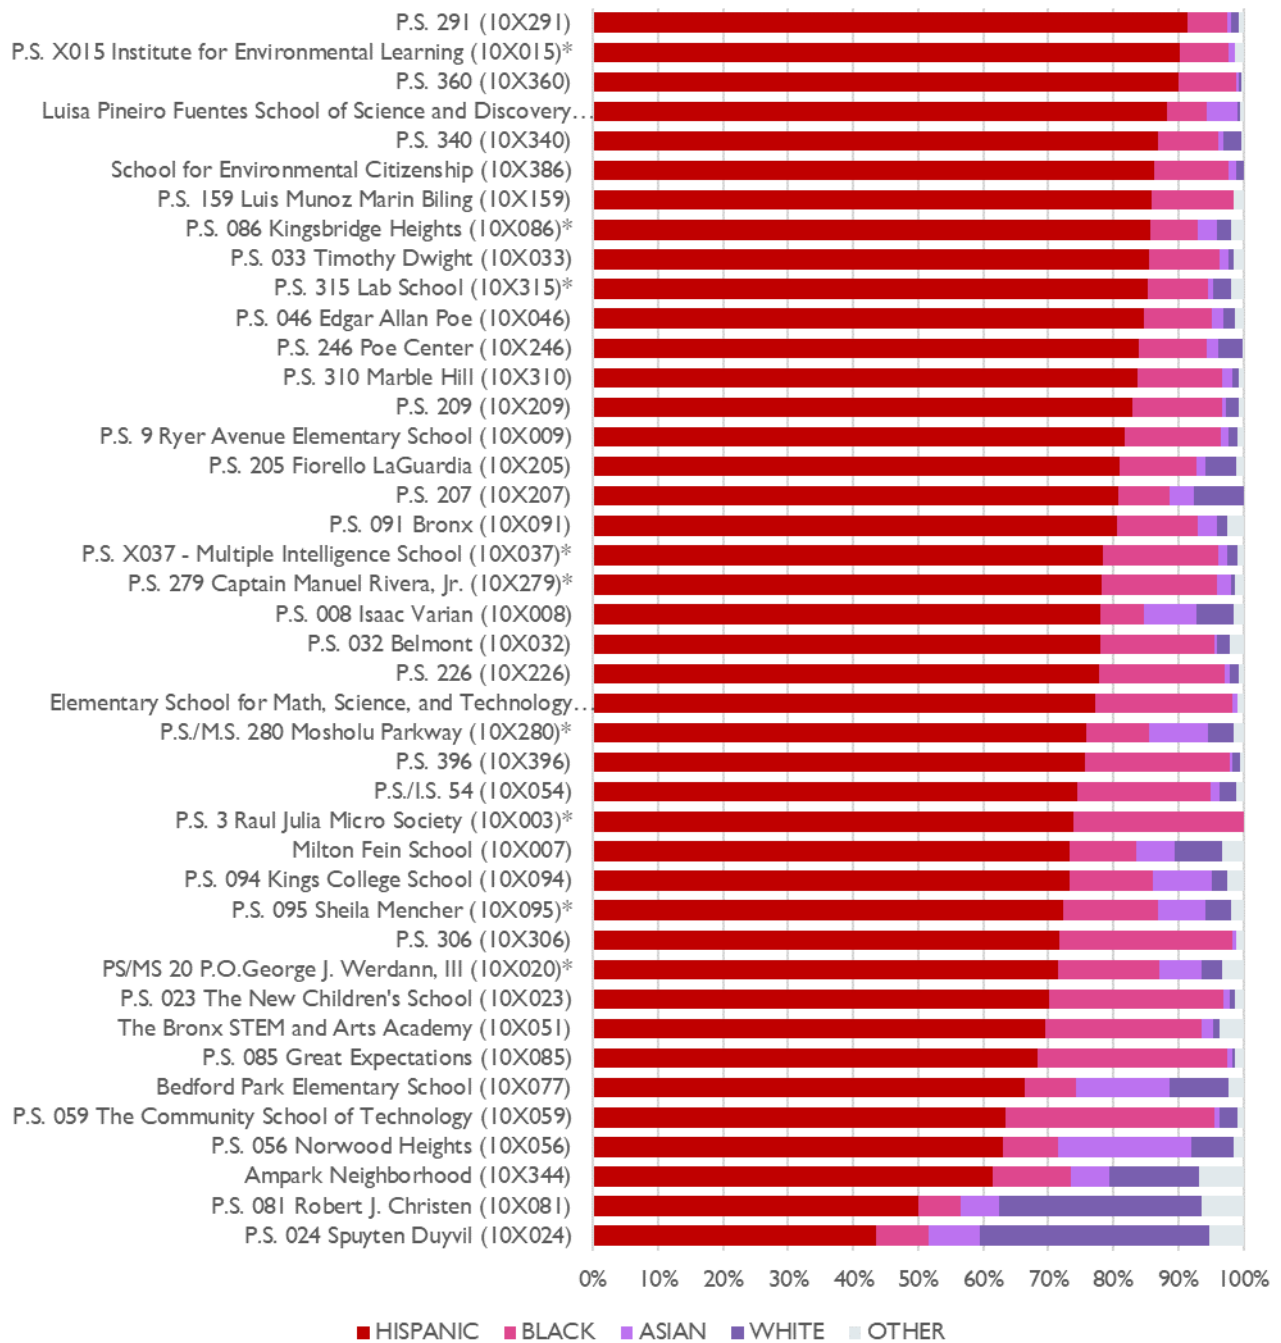

Source: 2022-2023 Audited Register; includes both district and charter schools

- Over three-quarters of the elementary and middle school students in District 10 identify as Hispanic. Black students comprise the second-largest group.
- District 10 elementary and middle schools serve a larger percentage of Hispanic students and a smaller percentage of Black students than Bronx and City averages.
- The percentage of white and Asian students in District 10 elementary and middle schools is comparable to the Bronx average, but lower than the citywide average.

- All District 10 middle schools and all but two District 10 elementary schools serve a Hispanic majority. Those schools, P.S. 24 and P.S. 81, are located in Riverdale and serve the highest shares of white students of any schools in the district.
- P.S. 56 in Norwood and J.H.S. 118 in Tremont serve the highest percentages of Asian students.
