CITYWIDE TRENDS

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about 12% since its peak in the 2016-2017 school year, exacerbated by population changes during the COVID-19 pandemic.

DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor’s Regulations A-185 and A-190.
 - **Chancellor’s Regulation A-185** governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
 - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
 - How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
 - What other school changes could be considered?

DISTRICT ENROLLMENT

UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
 - What has happened to district enrollment over the last six years overall? By incoming grade (i.e. K and sixth)? Are there notable trends?
 - Are students remaining in the district to attend school? If not, where are they going?

- At the elementary school level, six of the nine schools have seen enrollment declines of more than 30% over the past five years.
- At the middle school level, four of the seven schools have seen enrollment declines of more than 40% over the past five years.

HIGH DEMAND SCHOOLS IN DISTRICT 19

- The tables below include the highest demand schools at kindergarten and 6th grade in the district based on applications and applications compared to seats.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

Source: Fall 2023 admissions data

- At the elementary school level, the most in-demand option is P.S. 108, which is a community school with zoned admissions and a dual language program.
- At the middle school level, East New York Family Academy is a secondary school, and I.S. 171 Abraham Lincoln has a Transitional Bilingual Education program.

SEAT DEMAND

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.
- Guiding Questions:
 - Are there certain parts of the district with significant excess space? Areas of crowding or over-utilization?
 - How does projected enrollment compare to capacity and how do we expect that to change over time?
 - Do projections align with current, on-the-ground experience?

DISTRICT 19 ENROLLMENT

* Enrollment for 2017-18 through 2022-23 is based on Audited Register; enrollment for 2023-24 is based on NYCPS register estimates.

ELEMENTARY AND MIDDLE SCHOOL SEAT NEED

| | Seats | Enrollment | Excess / Deficit |
|----|--------|------------|------------------|
| ES | 11,030 | 7,522 | 3,508 |
| MS | 6,768 | 4,046 | 2,722 |

Source: Capacity estimates are based on 2021-2022 Blue Book with adjustments for schools with capacity spanning multiple grade levels (e.g. K-8 or 6-12 schools); enrollment is based on 2022-23 Audited Register. Excludes charter enrollment and capacity.

- District 19 is expected to continue to have excess K-8 seat capacity over the next several years.
- Currently, there is an excess of roughly 3,508 elementary school seats and 2,722 middle school seats in District 19.
- There are no new planned capacities or Capital Plan funded seats in District 19.

BUILDINGS & CAPACITY

SCHOOL & BUILDING UTILIZATION WITHIN THE DISTRICT

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
 - Given the current and projected capacity trends presented in the preceding Demand and Capacity section, does the district have sufficient capacity to meet its needs and support its students?
 - Is over- or under-utilization concentrated at a particular grade level? In a particular area?
 - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

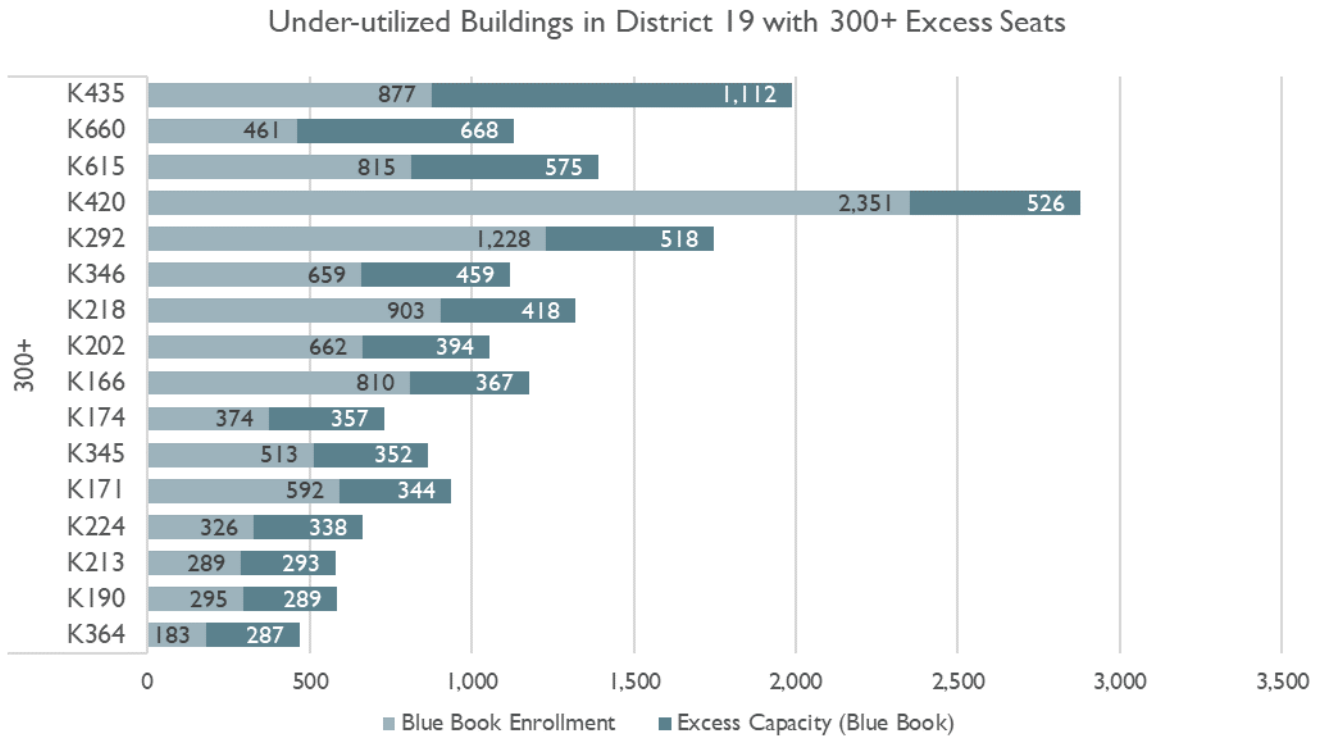

BUILDING SUMMARY

| | District 19 | Brooklyn |

| Under-Utilized Buildings | 26 | 195 |

| TCUs with Plan for Removal | 0 | 0 |
| Remaining TCUs | 0 | 6 |

Source: Building information from LCGMS. Building utilization categories based on the 2021-2022 Blue Book.

- There are 26 under-utilized buildings in District 19.
- There are 4 buildings over 100% utilization in District 19.

DISTRICT 19 UNDER-UTILIZED BUILDINGS

Source: Graph shows enrollment and capacity from 2021-2022 Blue Book; UU status is from the 2022-2023 UU Memo, and accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- Utilization rates do not always capture the full narrative of space in a building but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- Building K435 has 1,112 excess seats, the most excess space of any school building in District 19.
- Buildings K420, K435, K615, and K660 are high school campuses.

DISTRICT 19 BUILDINGS OVER 100% UTILIZATION

Buildings Over 100% Utilization in District 19

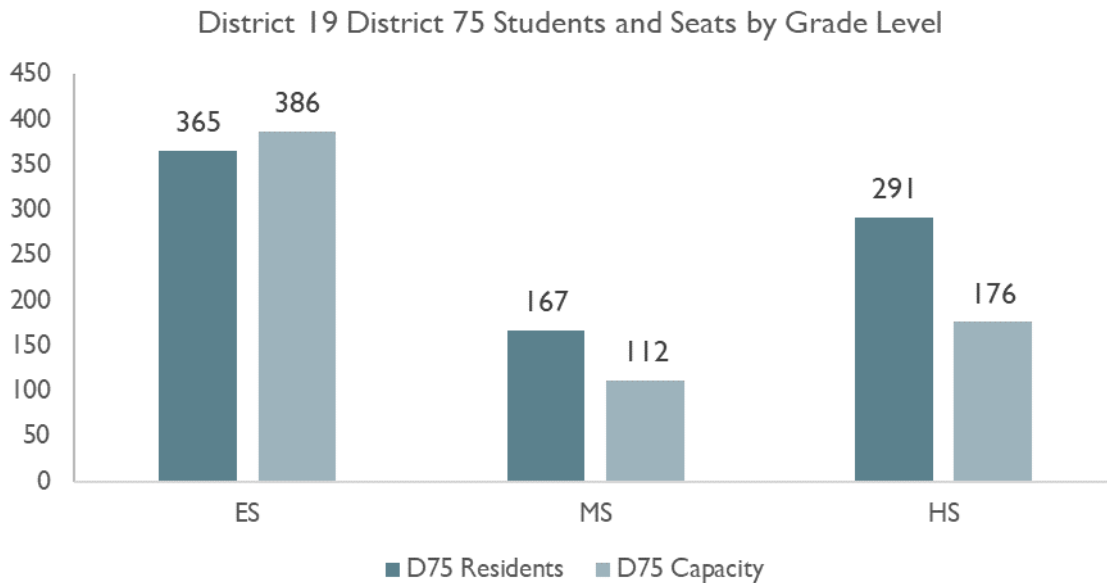

Source: 2021-2022 Blue Book

- There are 2 buildings in District 19 operating at over 110% utilization.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.

DISTRICT 75

- NYCPS’s District 75 provides highly specialized instructional support for students with significant challenges, such as ASD, significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
 - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools.
 - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
 - Does the district have a need for more District 75 seats?
 - Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?
