CITYWIDE TRENDS

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2014-15 TO 2023-24

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- Enrollment in D1-32 schools remained stable in 2023-2024 after declining by about 12% in the three school years since the onset of the COVID-19 pandemic.
- Overall, K-12 enrollment in District 1-32 schools and charter schools has declined by about 11% since its peak in the 2016-2017 school year.

DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor’s Regulations A-185 and A-190.
 - **Chancellor’s Regulation A-185** governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
 - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
 - How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
 - What other school changes could be considered?

DISTRICT ENROLLMENT TRENDS

UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
 - What has happened to district enrollment over the last six years overall? By incoming grade (Kindergarten, 6th grade, and 9th grade)? Are there notable trends?
 - Are students remaining in the district to attend school? If not, where are they going?

ENROLLMENT VS. CAPACITY

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.

DISTRICT 6 ENROLLMENT VS. CAPACITY

| | Seats | Enrollment | Excess / (Deficit) |
|----|-------|------------|--------------------|
| ES | 9,098 | 7,475 | 1,623 |
| MS | 6,064 | 3,771 | 2,293 |

DISTRICT 6 NEW CAPACITY PROJECTS

| Building | Building Name | Building Level | Description | Total Seats | Anticipated Opening |

| M502 | P.S./I.S. @ 3761 10TH AVENUE - MANHATTAN | PS/IS | Replacement Capacity | 770 | September 2024 |

Based on a New York City School Construction Authority report from October 2023. Includes only projects for grades K-12. Opening timelines are subject to change.

- At the elementary, middle school, and high school level, there continues to be sufficient capacity to accommodate students.
- Currently there are approximately 1,600 excess seats at the elementary level, 2,300 excess seats at the middle school level, and 1,000 excess seats at the high school level.
- Building M502 is a new building for P.S./M.S. 278 and P.S. 18, whose leases at connected buildings, M898 and M918, will expire in June 2024 after the conclusion of the 2023-2024 school year.
 - P.S./M.S. 278 and P.S. 18 will be re-sited and co-located in M502 in the 2024-2025 school year.

BUILDINGS & CAPACITY

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
 - Given the current enrollment and capacity, does the district have sufficient capacity to meet its needs and support its students?
 - Is over- or under-utilization concentrated at a particular grade level? In a particular area?
 - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

- There are 14 under-utilized buildings in District 6.
- There are eight buildings over 100% utilization in District 6.

UNDER-UTILIZATION IN DISTRICT 6

Source: Graph shows enrollment and capacity from 2022-2023 Blue Book; UU status is from a preliminary 2023-2024 UU analysis, and accounts for building enrollment and planning changes implemented in 2023-2024 and after.

- Utilization rates do not always capture the full narrative of space in a building. For example, several of these buildings have multiple co-located schools or programs, each requiring an individual amount of instructional and administrative space per the Footprint.
 - Buildings with co-located schools, although under-utilized, may not be candidates to expand existing schools or add new programming.
- Buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, and/or other district needs.

OVER-UTILIZATION IN DISTRICT 6

Buildings Over 100% Utilization in District 6

Source: 2022-2023 Blue Book

- There are eight buildings in District 6 are currently operating at over 100% utilization.
 - The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding.
- All zoned schools in these buildings are able to accommodate all of their zoned students through efficient programming of class sections and low zone retention.

TRANSPORTABLE CLASSROOM UNITS (TCUS)

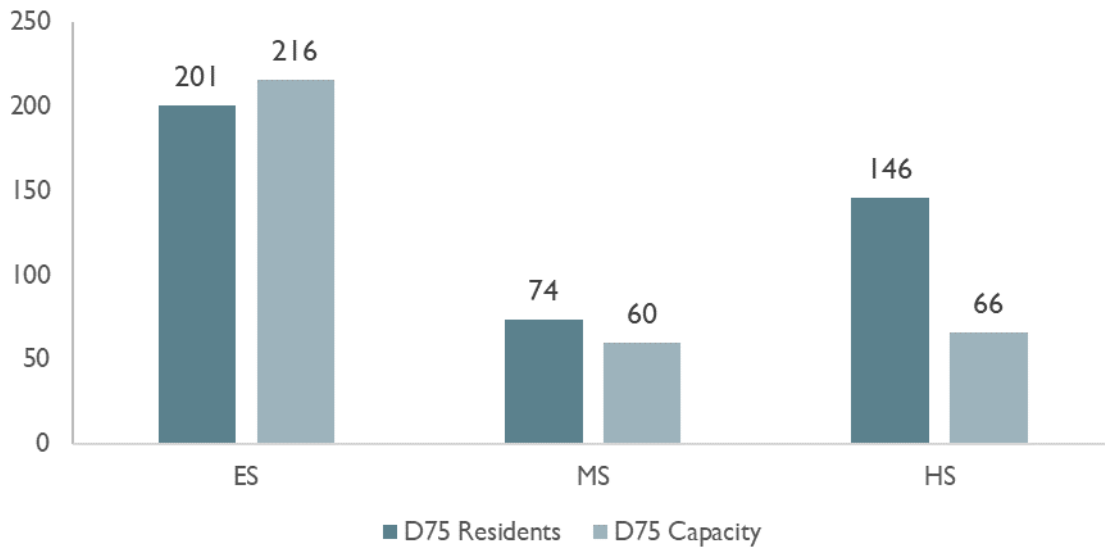

| Main Building ID | Building | Number of TCUs | Status |
|------------------|-----------------------------------|----------------|-----------|
| M465 | G. WASHINGTON HS EDUC. CAMPUS - M | 15 | Remaining |

- The George Washington Campus (M465) has 15 TCUs that are being used for grades two through four of The Equity Project Charter School (TEP).

DISTRICT 75

- NYCPS’s District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
 - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools.
 - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
 - Does the district have a need for more District 75 seats?
 - Are there potential options for new District 75 sites to provide opportunities for students to attend programs closer to their homes?
