

## ENVIRONMENTAL COMPLIANCE DECLARATION

January 2024

### RESTRICTION OF HAZARDOUS SUBSTANCES (RoHS)

Quantum Corporation (“Quantum”) understands the importance of designing and manufacturing its products in a way that is compliant with European Union Directives 2011/65/EU and 2015/863/EU on the restriction of the use of hazardous substances in electrical and electronic equipment. Quantum’s designation that a product is RoHS compliant means that the product does not contain any substance more than the maximum concentration values allowable under EU Directives 2011/65/EU and 2015/863/EU, unless the substance is in an application that is exempt under RoHS.

The following Quantum products are currently declared to be RoHS compliant. In some cases, compliance may be based on the application of certain available RoHS exemptions, including but not limited to exemptions 6(a)-I, 6(b)-I, 6(b)-II, 6(c), 7(a), 7(c)-I, and/or 13(a).
