

# MANAGED SERVICES

for CatDV™ Solutions

## DATASHEET

### FEATURES & BENEFITS

#### Free Up Creative, Editing, and IT Resources

Free up your critical resources by using Quantum experts to manage your solution so you can focus on strategic projects to drive your business forward.

#### Optimize Media Asset Management, Reduce Search Time, Improve Service Levels

Quantum proactively monitors your environment using application performance and infrastructure monitoring tools coupled with AI technology to identify issues more quickly, speed time-to-resolution, and address issues before they ever impact your operation.

#### Maintain the Control and Security of an On-Premises Infrastructure

Gain the benefits of outsourcing the management of your Quantum CatDV to experts, without sacrificing the control and security associated with moving to a public cloud infrastructure.

#### Improve System Performance and Maximize the Return on Your Investment

Quantum Managed Services include analysis of system logs, drop-in plugins, customizations, monitoring and management of a range of APIs, CatDV servers and workers, multi-site deployments and distributed workflows, security and permissions, and Quantum storage and archives. With other software telemetry data we can identify bottlenecks in your media workflow, allowing you to achieve the best results with your Quantum Solutions and maximize your ROI.

Proactive services that maximize media asset management efficiency, mitigate against data loss, improve system performance, and free up your creative teams to focus on strategic priorities.

### ACCELERATE YOUR DIGITAL TRANSFORMATION WITH MANAGED SERVICE OF YOUR CRITICAL DIGITAL ASSETS

Media Companies, professional sports leagues and teams, corporate media and training centers, educators, advertisers, marketers, healthcare providers, military, government and other rich-media content organizations worldwide are challenged with a massive number of digital assets, data growth, data retention, business expansion, and a need to leverage technology to keep their media assets well organized.

For our media-rich customers, Quantum storage and CatDV software are often critical to their media workflow operations, their tagging and data organization, and their business. Search time can be extremely costly and any lost data can cause project delays.

Quantum Managed Services is a portfolio of services that provide everything from periodic health assessments to full management of your entire Quantum CatDV production environment including Quantum generative AI media services.

Our experts augment your creative and IT staff and ensure your digital assets are protected, managed, and optimized to give you the best return on your Quantum investment.

### PROACTIVE SERVICES DELIVERED EFFICIENTLY WITH THE LATEST CLOUD-BASED TECHNOLOGY

Quantum Managed Services can be delivered remotely, on-premises at the customer site, or at a co-located data center.

### CUSTOMER PAYMENT OPTIONS

1. Subscription (OpEx)
2. Upfront capital expense
3. Leasing via Quantum GO
