EMPLOYMENT HISTORY

● Journeyman Lineman at AEP Ohio, OH

May 2023 - Present

- Completed a major transmission line project spanning over 50 miles, resulting in improved power supply and reliability for over 100,000 customers in the region.
- Successfully restored power to 90% of affected customers within 24 hours following a severe storm that caused widespread outages across Ohio, impacting over 200,000 households and businesses.
- Led a team of 15 linemen to upgrade and maintain over 300 miles of distribution lines within a year, reducing the number of power outages by 20% and improving overall customer satisfaction.

● Apprentice Lineman at Dayton Power & Light, OH

Aug 2019 - Mar 2023

- Successfully completed 1200 hours of on-the-job training, mastering essential skills such as pole climbing, transformer installation, and circuit troubleshooting.
- Efficiently restored power to over 500 homes during a severe storm by quickly locating and repairing damaged power lines and equipment within a 12-hour window.
- Collaborated with a team of linemen to upgrade 50 miles of overhead distribution lines, improving system reliability and reducing outage frequency for over 2000 customers.

EDUCATION
