

TECHNOLOGY INNOVATION CONSTRAINT SURVEY

The Technology Constraint relates to how you make decisions, prepare project plans and how you obtain resources to produce your new product(s). Take this short quiz to see if this constraint is lurking in your organization:

We have trouble moving to production due to slow technology

We do not account for the time needed for learning in new projects

Our activities require mitigating efforts to avoid ecological harm

If you answered "yes" to any of these questions, you may benefit from attending Vanderbilt's Strategic Innovation Short Program to work on the Technology Innovation Constraint in your organization. Visit creativepeoplemustbestopped.com to take the full survey.
