

iPhone

Before using iPhone, review the *iPhone User Guide* at support.apple.com/guide/iphone.

Safety and Handling

See "Safety, handling, and support" in the *iPhone User Guide*.

Exposure to Radio Frequency

On iPhone, go to Settings > General > Legal & Regulatory > RF Exposure. Or go to apple.com/legal/rfexposure.

Battery and Charging

An iPhone battery should only be repaired by a trained technician to avoid battery damage, which could cause overheating, fire, or injury. Batteries should be recycled or disposed of separately from household waste and according to local environmental laws and guidelines. For information about Apple lithium-ion batteries and battery service and recycling, go to apple.com/batteries/service-and-recycling. For information about charging, see "Important safety information" in the *iPhone User Guide*.

Lasers

The proximity sensor, the TrueDepth camera system, and the LiDAR Scanner contain one or more lasers. These laser systems may be disabled for safety reasons if the device is damaged or malfunctions. If you receive a notification on your iPhone that the laser system is disabled, you should always have it repaired by Apple or an authorized service provider. Improper repair,

modification, or use of non-genuine Apple components in the laser systems may prevent the safety mechanisms from functioning properly, and could cause hazardous exposure and injury to eyes or skin.

Class 1 Laser Information

This device is classified as a Class 1 Laser product per IEC 60825-1 Ed. 3. This device complies with 21 CFR 1040.10 and 1040.11, except for conformance with IEC 60825-1 Ed. 3., as described in Laser Notice No. 56, dated May 8, 2019. Caution: This device contains one or more lasers. Use other than as described in the user guide, repair, or disassembly may cause damage, which could result in hazardous exposure to infrared laser emissions that are not visible. This equipment should be serviced by Apple or an authorized service provider.

CLASS 1 LASER PRODUCT

Hearing Aid Compatibility (HAC)—U.S. only

iPhone is hearing aid compatible as determined by ANSI C63.19-2019. This iPhone supports volume control with a conversational gain of 16 dB with hearing aids, and 18 dB without hearing aids.

Note: The 2019 ANSI C63.19 standard does not use M (for reduced radio-frequency interference to enable acoustic coupling) and T (for inductive coupling with hearing aids operating in telecoil mode) rating system nor do any test standards exist for any wireless technologies that transmit above 6 GHz. Therefore, 5G NR mmWave frequency bands cannot be tested. Waiver DA 23-914 was used to demonstrate compliance.

Compulsory FCC statement: This phone has been tested and certified for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

Avoid Hearing Damage

To prevent possible hearing damage, do not listen at high volume levels for long periods. More information about sound and hearing is available online at apple.com/sound and in "Important safety information" in the *iPhone User Guide*.

Medical Device Interference

iPhone contains magnets as well as components and/or radios that may interfere with medical devices. See "Important safety information" in the *iPhone User Guide*.

Regulatory

Regulatory certification information is available on-device. Go to Settings > General > Legal & Regulatory. Additional regulatory information is in "Safety, handling, and support" in the *iPhone User Guide*.

FCC and ISED Canada Compliance

This device complies with part 15 of the FCC Rules and ISED Canada licence-exempt RSS standard(s). Operation

is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Apple One-Year Limited Warranty Summary

Apple warrants the included hardware product and accessories against defects in materials and workmanship for one year from the date of original retail purchase. Apple does not warrant against normal wear and tear, nor damage caused by accident or abuse. To obtain service, call Apple or visit an Apple Store or an Apple Authorized Service Provider—available service options are dependent on the country in which service is requested and may be restricted to the original country of sale. Call charges and international shipping charges may apply, depending on the location. Subject to the full terms and detailed information on obtaining service available at apple.com/legal/warranty and support.apple.com, if you submit a valid claim under this warranty, Apple will either repair, replace, or refund your hardware device at its own discretion. Warranty benefits are in addition to rights provided under local consumer laws. You may be required to furnish proof of purchase details when making a claim under this warranty.
