

India's Largest CSR Impact Communication Platform

Information | Knowledge | Collaboration

“Strong brands in all sectors help organizations acquire financial, human, and social resources, and build key partnerships. The trust that strong brands elicit also provides organizations with the authority and credibility to deploy those resources more efficiently and flexibly than can organizations with weaker brands.”

-Stanford Social Innovation Review

Your brand, as an impact organization, becomes critical when you are seeking new partnerships, looking for more funders, want to communicate about lives that you impact, willing to associate with people in government or CSR and when you are exploring new collaborations. While most of the organizations invest handsome amount on program design and delivery, they ignore the brand visibility which is essential to communicate the impact of the programs. There is **psychological value associated with the brand communication**, and non-profits, social businesses and CSR foundations are the best positioned to leverage this value for the social good.

While you build and run your organization, we at CSRBOX, help you to build visibility, to capture attention of the funders you want to target in future and to amplify your impact' outreach to the right target group. We boost your **'impact-brand value'**.

*As a social impact communication solutions platform,
we serve you with*

Social Media Amplification

Let's proliferate the impact your interventions have created through our social media platforms with 1.7 lakh+ followers. We use multichannel approach to highlight your programs in front of the right audience.

@haqdarshak ensures financial inclusion for those who earn less than 500 INR a day. If you are a bank or an org whose goal is to promote financial inclusion in India, we are competent partners to team up with! Drop us a note at contactus@haqdarshak.com, and we'll connect.

Nagai Narayanji Memorial Foundation (NNMF) is engaged in spreading awareness about disability and related issues. Every screening camp organized by the Foundation starts with an awareness session where experts provide information and guide the audience about the various types, extent, causes, and preventive measures. Through regular screening camps organized by the foundations, more than 16000 children were assessed by the expert medical team. Normally 50% -70 % of the screened children require corrective surgeries. To know more, visit - <https://lnkd.in/eDAPNXX>
