# HATE CRIME

## IN CALIFORNIA

# HATE
# CRIME

# The Role of the Criminal Justice Statistics Center is to:

- Collect, analyze, and report statistical data that provide valid measures of crime and the criminal justice process.

- Examine these data on an ongoing basis to better describe crime and the criminal justice system.

- Promote the responsible presentation and use of crime statistics.

**CALIFORNIA DEPARTMENT OF JUSTICE**
Xavier Becerra, Attorney General

# Executive Summary
# Hate Crime in California
# 2019

*Hate Crime in California 2019* presents statistics on hate crimes[1] reported by California law enforcement agencies that occurred during 2019 with prior years included for context. These statistics include the number of hate crime events[2], hate crime offenses[3], victims of hate crimes, and suspects of hate crimes. This report also provides statistics reported by district and elected city attorneys on the number of hate crime cases referred to prosecutors, the number of cases filed in court, and the disposition of those cases. These data are provided to assist in policy development and to inform the public on the nature and frequency of the reported hate crimes in California.

The total number of hate crime events, offenses, and suspects decreased while the total number of victims increased in 2019. The following statements highlight the major trends in Hate Crime in California for 2019.

Local law enforcement agencies are required to report hate crimes to the Department of Justice (DOJ) in compliance with California Penal Code Section 13023. California Penal Code Section 422.55 defines a hate crime as "a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim: (1) disability, (2) gender, (3) nationality, (4) race or ethnicity, (5) religion, (6) sexual orientation, (7) association with a person or group with one or more of these actual or perceived characteristics."

## Crime Data

The number of hate crime events have fluctuated over the last decade. In the last 10 years, hate crime events have decreased by 8.3 percent with 1107 reported in 2010 and 1015 reported in 2019 (Table 11). The lowest year for reported hate crime events was 2014 with 758 events (Table 11).

Hate crime events decreased 4.8 percent from 1,066 in 2018 to 1,015 in 2019 (Table 11).

The number of victims of reported hate crimes increased 0.8 percent from 1,237 in 2018 to 1,247 in 2019 (Table 15).

The number of suspects of reported hate crimes decreased 11.5 percent from 1,093 in 2018 to 967 in 2019 (Table 15).

---

[1] This report contains information related to hate crimes as defined in PC section 422.55. This report does not contain reports of hate incidents that do not rise to the level of a hate crime

[2] The term *event* is defined as an occurrence where a hate crime is involved. (In this report, the information about the event is a crime report or source document that meets the criteria for a hate crime.) There may be one or more suspects involved, one or more victims targeted, and one or more offenses involved for each event.

[3] The term *offense* is defined as criminal acts that are recorded as follows: murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, arson, simple assault, intimidation, and destruction/vandalism as defined in the Uniform Crime Reporting (UCR) and the national Hate Crimes Statistics Report.

Hate crime events involving a racial bias overall decreased 12.0 percent from 594 in 2018 to 523 in 2019 (Table 11).
- Anti-black or African American bias events fell from 276 in 2018 to 243 in 2019, a decrease of 12.0 percent.
- Anti-Hispanic or Latino bias events fell from 149 in 2018 to 110 in 2019, a decrease of 26.2 percent.

Hate crime events involving a religion bias increased 3.5 percent from 201 in 2018 to 208 in 2019 (Table 11).
- Anti-Jewish bias events rose from 126 in 2018 to 141 in 2019, an increase of 11.9 percent.
- Anti-Islamic (Muslim) bias events fell from 28 in 2018 to 25 in 2019.

Hate crime events involving a sexual orientation bias decreased 2.1 percent from 238 in 2018 to 233 in 2019 (Table 11).
- Bias events against gay men or men perceived to be gay rose from 169 in 2018 to 172 in 2019, an increase of 1.8 percent.
- Events involving sexual orientation bias generally fell from 41 in 2018 to 35 in 2019.

Hate crime offenses decreased 0.6 percent from 1,268 in 2018 to 1,261 in 2019 (Table 12).
- Violent crime offenses increased 3.1 percent from 838 in 2018 to 864 in 2019 (Table 13).
- Property crime offenses decreased 8.5 percent from 426 in 2018 to 390 in 2019 (Table 13).

# Prosecutorial Data

Of the 392 hate crimes that were referred for prosecution, 288 cases were filed by district attorneys and elected city attorneys for prosecution. Of the 288 cases that were filed for prosecution, 200 were filed as hate crimes and 88 were filed as non-bias motivated crimes (Table 7A).

Of the 166 cases with a disposition available for this report:
- 49.4 percent (82) were hate crime convictions;
- 44.6 percent (74) were other convictions; and
- 6.0 percent (10) were not convicted (Table 7B).

# Understanding the Data
# Data Characteristics and Known Limitations

## Crime Data

The following information and limitations should be considered when using hate crime data:

1) A hate crime **event** contains the occurrence of one or more criminal offenses, committed against one or more victims, by one or more suspects or perpetrators. Victims can have more than one offense committed against them.

2) Hate crimes reported by law enforcement agencies are counted in a specific way. In each hate crime event, the DOJ counts the total number of victims, the total number of suspects, and the total number of criminal offenses in one event. These totals are then classified and counted by type of bias motivation (e.g., anti-black or African American, anti-Hispanic or Latino, anti-Jewish, anti-gay, etc.), type of crime (e.g., murder, aggravated assault, burglary, destruction/vandalism, etc.), the location where the crime took place (e.g., residence, street, synagogue, school, etc.), and the type of victim (e.g., individual, property, etc.).

3) The DOJ requested that each law enforcement agency establish procedures incorporating a two-tier review (decision-making) process. The first level is done by the initial officer who responds to the suspected hate crime incident. At the second level, each report is reviewed by at least one other officer to confirm that the event was, in fact, a hate crime.

4) Caution should be used when making jurisdictional comparisons. The following factors should be considered: cultural diversity and population density; size of law enforcement agencies; and the training received in the identification of hate crimes by law enforcement officers in each jurisdiction.

5) The following factors may influence the volume of hate crimes reported to the DOJ:

   • Cultural practices of individuals and their likeliness to report hate crimes to law enforcement agencies.

   • Strength and investigative emphasis of law enforcement agencies.

   • Policies of law enforcement agencies.

   • Community policing policies.

6) In 2009, the DOJ began collecting information on hate crimes involving multiple-bias motivations. Law enforcement agencies were able to report up to five bias motivations for each hate-related event, as long as there was a unique offense for each bias motivation.

   In 2011, the DOJ expanded the acceptable location codes for the California hate crime data collection system to reflect modifications implemented at the national level.

   In 2013, the DOJ expanded the gender bias category for the California hate crime data collection system to include crimes motivated by gender non-conformity in order to reflect modifications implemented at the national level.

   In 2014, the DOJ expanded the religion bias for the California hate crime data collection system to include Sikh in order to reflect modifications implemented at the national level.

   In 2015, the DOJ expanded the race and ethnicity bias category for the California hate crime data collection system to include Native Hawaiian or Pacific Islander in order to reflect modifications implemented at the national level.

   In 2019, Orange County Sheriff disclosed that they unintentionally under-reported four 2018 hate crimes during the reporting cycle.

7) There is a significant difference between how crimes against an individual is counted versus how a crime against an entity is counted that stems from the DOJ's Criminal Justice Statistics Center's use of the Federal Bureau of Investigation's (FBI's) Uniform Crime Reporting (UCR) program standards. A property crime against an entity (a business, religious organization, government institution, etc.) can only be counted as one victim, whereas a crime committed against individuals can have more than one victim

8) In 2013, the FBI's UCR program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape," which is now defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." The California DOJ implemented this definition change in January 2014.

# County District Attorney and
# Elected City Attorney Prosecutorial Data

The following information and limitations should be considered when interpreting hate crime cases:

1) In order to show the criminal justice system's response to hate crimes, in 1995 the Attorney General asked all district attorneys and elected city attorneys to submit summary data of complaints filed and convictions secured.

2) The 2019 District Attorney's and Elected City Attorney's Report File of Hate Crime Cases contains summary data based on cases referred to each district attorney or elected city attorney, and filings and convictions that occurred from January 1, 2019, through December 31, 2019.

3) When viewing prosecutorial data, it is not possible to relate the number of hate crimes reported by law enforcement agencies to the number of hate crimes prosecuted by district attorneys and city attorneys. First, crimes often occur in different reporting years than their subsequent prosecutions. Second, the number of crimes reported by law enforcement is much higher than those calling for prosecutorial action since the latter requires an arrested defendant who can be prosecuted in a court of law.

4) The annual prosecutorial report collects data on the total number of hate crime cases filed and the total number of hate crime convictions. There is no direct relationship between "complaints filed" and "convictions" since a case may be filed in one year and the outcome (trial or pleading) may occur in another.

5) All prosecutorial data include hate crimes committed by both juvenile and adult defendants.

6) Glenn County District Attorney did not report data for 2014.

Notes: Hate Crime Prosecution Survey is conducted by the Criminal Justice Statistics Center in January following the reporting year.
The number of complaints filed by county district attorneys and elected city attorneys or the number of cases that resulted
in hate crime convictions cannot be linked to the number of hate crimes reported by law enforcement agencies in any
given year.

Table 10

Notes: Hate Crime Prosecution Survey is conducted by the Criminal Justice Statistics Center in January following the reporting year.
　　The number of complaints filed by county district attorneys and elected city attorneys or the number of cases that resulted in hate crime convictions cannot be linked to the number of hate crimes reported by law enforcement agencies.
　　Dash indicates that percent changes are not calculated when the base number is less than 50.
[a] Glenn County District Attorney did not report data for 2014.

Notes: Percentages may not add to subtotals or 100.0 because of rounding.
  Dash indicates that percent changes are not calculated when the base number is less than 50, or that no data were reported.
[1] Reporting of anti-Native Hawaiian or Pacific Islander began in 2015.
[2] Data do not match previously published reports due to the separation of anti-Arab bias type from anti-other ethnicity/national origin bias type.
[3] Reporting of anti-Sikh bias motivation began in 2014.
[4] Reporting of anti-gender non-conforming bias motivation began in 2013.

Notes: Percentages may not add to subtotals or 100.0 because of rounding.
Dash indicates that percent changes are not calculated when the base number is less than 50, or that no data were reported.
[1] Reporting of anti-Native Hawaiian or Pacific Islander began in 2015.
[2] Data do not match previously published reports due to the separation of anti-Arab bias type from anti-other ethnicity/national origin bias type.
[3] Reporting of anti-Sikh bias motivation began in 2014.
[4] Reporting of anti-gender non-conforming bias motivation began in 2013.

# Appendix:
# Glossary

**Aggravated Assault** – An unlawful attack by one person upon another for the purposes of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm (FBI's UCR definition).

**Bias** – A preformed negative opinion or attitude toward a group of persons based on their race, ethnicity, national origin, religion, gender, sexual orientation, or physical/mental disability.

**Bisexual** – Of or relating to persons who experience sexual attraction toward and responsiveness to both males and females; (noun) a bisexual person.

**Case** – A set of facts about a crime that is referred to a district attorney for filing with a court. The case may charge one or more persons with the commission of one or more offenses. (For this report, the case must contain some element of bias.)

**Complaints Filed** – Any verified written accusation, filed by a district attorney with a criminal court, that charges one or more persons with the commission of one or more offenses. (For this report, the case must contain some element of bias.)

**Conviction** – A judgment based on the verdict of a jury or a judicial officer or on a guilty plea or a nolo contendere plea of the defendant.

**Disposition** – In criminal procedure, the sentencing or other final settlement of a criminal case.

**Ethnic Bias** – A preformed negative opinion or attitude toward a group of persons of the same race or national origin who share common or similar traits in language, custom, and tradition.

**Event** – An occurrence where a hate crime is involved. (In this report, the information about the event is a crime report or source document that meets the criteria for a hate crime.) There may be one or more suspects involved, one or more victims targeted, and one or more offenses involved for each event.

**Gay** – Of or relating to males who experience a sexual attraction toward and responsiveness to other males; (noun) a homosexual male.

**Gender Non-Conforming** – (adjective) Describes a person who does not conform to the gender-based expectations of society, e.g., a woman dressed in traditionally male clothing or a man wearing makeup.

**Guilty Plea** – A defendant's formal answer in open court stating that the charge is true and that he or she is guilty of the crime charged.

**Hate Crime** – A criminal offense against a person or property motivated in whole or in part by an offender's bias against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.

**Heterosexual** – Of or relating to persons who experience sexual attraction toward and responsiveness to members of the opposite sex; (noun) a heterosexual person.

**Homosexual** – Of or relating to persons who experience sexual attraction toward and responsiveness to members of their own sex; (noun) a homosexual person.

   Note: This is an outdated clinical term considered derogatory and offensive by many people; current journalistic standards restrict usage of the term; "lesbian" and/or "gay" accurately describes those who are attracted to people of the same sex.

**Known Suspect** – Any person alleged to have committed a criminal act or attempted criminal act to cause physical injury, emotional suffering, or property damage. The known suspect category contains the number of suspects that have been identified and/or alleged to have committed hate crimes as stated in the crime report. For example, witnesses observe three suspects fleeing the scene of a crime. The word "known" does not necessarily refer to specific identities.

**Lesbian** – Of or relating to females who experience sexual attraction toward and responsiveness to other females; (noun) a homosexual female.

   Note: Some lesbian women prefer to be described as gay women. For FBI UCR Program purposes, however, if reporting an anti-gay bias, the victim should be a male.

**LGBTQ** – Common initialism for "lesbian, gay, bisexual, transgender, and queer" used here to refer to community organizations or events that serve lesbian, gay, bisexual, transgender, queer, and allied people.

**Location** – The place where the hate crime event occurred. The location categories follow UCR location specifications developed by the FBI. Examples are residence, hotel, bar, church, etc.

**Multi-Racial** – A hate crime that involves more than one victim or suspect, and where the victims or suspects are from two or more different race groups, such as African American and white or Hispanic and Asian.

**Nolo Contendere** – A plea or answer in a criminal action in which the accused does not admit guilt but agrees to be subject to the same punishment as if he or she were guilty.

**Offenses** – Criminal acts that are recorded as follows: murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, arson, simple assault, intimidation, and destruction/ vandalism as defined in the UCR and the national Hate Crimes Statistics Report.

**Physical/Mental Disability Bias** – A preformed negative opinion or attitude toward a group of persons based on physical or mental impediments/challenges, whether such disabilities are congenital or acquired by heredity, accident, injury, advanced age, or illness.

**Property Crimes** – Burglary, larceny-theft, motor vehicle theft, arson, and destruction/vandalism are reported as property crimes.

**Racial Bias** – A preformed negative opinion or attitude toward a group of persons, such as Asians, blacks, or whites, based on physical characteristics.

**Religious Bias** – A preformed negative opinion or attitude toward a group of persons based on religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being. Examples are Catholics, Jews, Protestants, or Atheists.

**Sexual-Orientation Bias** – A preformed negative opinion or attitude toward a group of persons based on sexual preferences and/or attractions toward and responsiveness to members of their own or opposite sexes.

**Simple Assault** – An unlawful attack by one person upon another that does not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victim (FBI's UCR definition).

**Trial Verdict** – The finding or answer of a jury or judge concerning a matter submitted to them for their judgment.

**Uniform Crime Reporting** – A federal reporting system that provides data on crime based on police statistics submitted by law enforcement agencies throughout the nation. The DOJ administers and forwards the data for California to the federal program.

**Victim** – An individual, a business or financial institution, a religious organization, a government entity, or other. For example, if a church or synagogue is vandalized or desecrated, the victim would be a religious organization.

**Violent Crimes** – Murder, rape, robbery, aggravated assault, simple assault, and intimidation are considered violent crimes in this report. (Robbery is included in crimes against property in the FBI Hate Crimes Statistics Report.)
