MESSAGE FROM THE CHANCELLOR

As Chancellor, it has been a pleasure to be involved in CQUniversity's latest strategic planning process.

I have been very encouraged by the level of engagement and collaboration from all members of the CQUniversity community including the University Council, University executive and staff, our students, our alumni and community partners in the development of this crucial plan. This is a testament to our commitment to work with our people, our partners and our communities and demonstrates a strong alignment to our values of openness and engagement.

Over the last 10 years CQUniversity has become a truly great university. We have always strived to be a leader in removing participation barriers to world-class training, education and research, particularly amongst under-represented groups and under-served communities. As a result, our impact is being felt across Australia and around the world. Today, the many communities we serve benefit immensely from the bold measures CQUniversity has put in place, and this commitment has seen us emerge as one of the most exciting young universities in the world.

Whilst our journey so far has been rewarding, the journey is far from over. There remains huge opportunities and unmet potential within the communities we currently serve, as well as those communities who would benefit from our presence. As a result, this strategic plan is based on our new vision, *'to be Australia's most accessible, supportive and engaged university, recognised globally for innovative teaching and research excellence'*.

Our work over the coming years will require imagination and innovation. With the strategic focus of this plan, and by achieving the goals within it, I am confident that we will build upon the impact we generate as one of the world's great universities.

On behalf of the CQUniversity Council, I commend this new strategic plan.

Mr John Abbott
Chancellor

MESSAGE FROM THE VICE-CHANCELLOR AND PRESIDENT

It is my privilege to present CQUniversity's Strategic Plan 2019-2023 – *Our Future is You*.

Our new strategic plan will position CQUniversity as a leader in providing seamless, full-spectrum education pathways and give us an unrivalled reputation for engagement and inclusivity. It will deliver significant outcomes and social and economic dividends for our students, staff, alumni, communities and partners.

As educators and researchers in a contemporary university, we are being tested by new threats and emerging opportunities which are both challenging and exciting. CQUniversity has achieved remarkably over the past decade, but we must now look at how we build upon our past achievements. How we shape the next decade and respond to opportunities and challenges will define who we are as a university for the next 50 years. We will need to move forward with boldness and courage; but above all else, we must dare to be different, distinguishing ourselves by defining success in our own terms.

This strategic plan is the roadmap to our future, providing direction, motivation and purpose to support our vision of becoming Australia's most accessible, supportive and engaged university. I am particularly proud of this plan because it was shaped by staff, students, alumni, communities and stakeholders across the University's huge footprint. It represents the shared vision of the CQUniversity family, responding to the question, '*where could we be in the future if we dared to be different?*'

We all have a role to play in this strategic plan, and I look forward to working with all University stakeholders in its implementation.

Professor Nick Klomp
Vice-Chancellor and President
