WIRELINE COMPETITION BUREAU DIRECTS USAC TO FULLY FUND ELIGIBLE CATEGORY ONE AND CATEGORY TWO E-RATE REQUESTS

CC Docket No. 02-6

In this Notice, the Wireline Competition Bureau (Bureau) announces that there is sufficient funding available to fully meet the Universal Service Administrative Company's (USAC) estimated demand for category one and category two requests for E-Rate supported services for funding year 2019.¹

On April 1, 2019, USAC submitted a demand estimate for the E-Rate program for funding year 2019.² It estimates the total demand for funding year 2019 will be \$2.896 billion, which includes estimated demand for category one services of \$1.91 billion and of \$985 million for category two services.³

The Bureau announced that the E-Rate program funding cap for funding year 2019 is \$4.15 billion.⁴ Additionally, according to USAC projections, \$1 billion in unused funds from previous years is available for use in E-Rate funding year 2019.⁵

The Chief of the Bureau is delegated authority to determine the proportion of unused funds needed to meet category one demand and to direct USAC to use any remaining funds to provide category two support.⁶ In light of the current funding cap of \$4.15 billion and available carry forward funding of \$1 billion, there is sufficient funding to fully fund all category one and category two funding requests. We therefore direct USAC to fully fund eligible category one and category two requests, using the \$1 billion in E-Rate funds unused from previous years, and any additional funds needed under the current cap to fully meet demand for such services.

¹ The 2019 funding year runs from July 1, 2019 to June 30, 2020. The E-Rate program is more formally known as the schools and libraries universal service support program. Category one services include telecommunications, telecommunications services and Internet access. Category two services include internal connections, basic maintenance of internal connections and managed internal broadband services.

² See Letter from Catriona Ayer, Vice President, Schools and Libraries Division, USAC, to Kris Monteith, Chief, Wireline Competition Bureau, FCC, CC Docket No. 02-6, at Attach. (Apr. 1, 2019).

³ *Id.* The demand estimate for funding year 2019 has since been adjusted to \$2.597 billion. See USAC, Federal Universal Service Support Mechanisms Fund Size Projections for Third Quarter 2019 (May 2, 2019), https://www.usac.org/about/tools/fcc/filings/2019/q3/USAC%203Q2019%20Federal%20Universal%20Service%20Mechanism%20Quarterly%20Demand%20Filing_Final.pdf, at 66 (Third Quarter USF Size Projections).
