Company Overview

ECS Inc. International

At ECS Inc. our mission is to create relationships that enrich life through advanced technology. For more than 40 years, we have met the growing global demand for frequency control solutions such as crystal oscillators, MultiVolt™ oscillators, AEC-Q200 qualified crystals, power inductors, real time clocks and more.

ECS Inc. prides ourselves on being on the cutting edge of design and engineering in frequency control and timing solutions. We aspire to lead the industry and passionate people to spark technological solutions that create a more advanced world.

AEC-Q200 AUTOMOTIVE GRADE CRYSTALS

ECS Inc. International's high temperature automotive grade frequency control quartz crystals are manufactured in IATF 16949 certified factories and are AEC-Q200 qualified. Offered in the leading surface mount packaging configurations, our AEC-Q200 crystal products are available in a range of frequencies. Automotive grade frequency control products are desirable for many customers in the automotive, industrial, and medical markets. These products meet the most stringent requirements for extremely harsh environments typical in automotive applications. For more product options and information, contact our engineering team at engineering@ecsxtal.com.

Innovative Transportation

From cell phones and the internet to Wi-Fi and GPS, electronics have become a part of our everyday lives. The automotive industry has seen the most dramatic incorporation of technology through the evolution of collision avoidance, safety measures, infotainment, telematics, and soon we will see fully autonomous cars. The continuing innovation will make transportation easier, faster, and safer. ECS Inc. is continuously developing new technology to provide solutions for tomorrow's needs.

AEC-Q200 AUTOMOTIVE GRADE OSCILLATORS

ECS Inc.'s high-temperature automotive frequency control crystal oscillators are AEC-Q200 qualified and are manufactured in IATF 16949 certified factories, making them a top choice for automotive electronic design. Offered in surface mount circuit packaging - the leading choice for electronic engineering - ECS Inc.'s AEC-Q200 qualified oscillators are available in a wide range of frequencies with extended temperature ranges needed for harsh applications. Automotive-grade frequency control products are desirable for many customers in the industrial engineering and medical application industries, as well as the automotive electronics market. These products meet stringent requirements for the extremely harsh environments that are typical in automotive applications.

Standard MHz Oscillators

Series	Package Size	Frequency (min-max)	Stability		Max. Operating Temperature	Datasheet

AEC-Q200 AUTOMOTIVE GRADE POWER INDUCTORS

Power Inductors

ECS Inc. offers a wide selection of small form factor power inductors for DC/DC power applications. A power inductor, also known as a coil or choke, is a two-terminal passive electronic component used to clean up the output from high frequency switching power supplies. They offer low magnetic radiation for low noise environments. They do this by storing energy in the form of a magnetic field. ECS Inc.'s small form factor shielded power inductors offer low DC resistance and wide temperature ranges. Let ECS Inc. International be your one-stop shop for power inductors.

Series	Package Size	Inductance Range	I_{sat} (Amps)	DCR (m Ω)	Operating Temperatures	Datasheet
ECS-MPI4040R1	4.7 x 4.31 x 1.2 mm	0.09 - 10 μ H \pm 20%	2.8 - 32	8.5 - 370	-55°C ~ +125°C	Datasheet
ECS-MPI4040R2	4.7 x 4.31 x 1.5 mm	0.47 - 10 μ H \pm 20%	3.1 - 12.2	12 - 240	-55°C ~ +125°C	Datasheet
ECS-MPI4040R3	4.7 x 4.31 x 1.85 mm	0.22 - 22 μ H \pm 20%	2.2 - 20	5.8 - 408	-55°C ~ +125°C	Datasheet
ECS-MPI4040R4	4.7 x 4.31 x 2.0 mm	0.22 - 22 μ H \pm 20%	1.8 - 15	5.3 - 316	-55°C ~ +125°C	Datasheet
ECS-HCMPI-0503Q	5.5 x 5.3 x 2.9 mm	0.15 - 4.7 μ H \pm 20%	8.2 - 36	2.31 - 36.3	-40°C ~ +125°C	Datasheet

A Thank You

FROM OUR CEO

To our valued ECS Inc. customer –

We want to thank you for reviewing our product catalog.

We have spent the last 44 years working tirelessly to ensure that every time you select an ECS Inc. International component for your design, you can count on excellent quality and performance. We will continue to be a leader in the frequency control and magnetics industry as we continue to develop new products to meet emerging technologies with cutting edge solutions to fill gaps in traditional product development.

We strive to provide so much more than just a component. As an ECS Inc. International customer, you are our priority. It is every team member's daily goal to provide you with concentrated attention, support, and care that is unparalleled while ensuring we are always looking ahead at the new advancements in technology. We want to be there for every customer because no matter if you purchase a thousand pieces per year or ten thousand pieces per year, we truly appreciate you.

Looking toward the future, we intend to expand our teams both domestically and internationally with enhanced engineering staff, sales representatives, distribution partners, and educational resources.

We understand that you have choices when designing every board, so on behalf of us and all our team members internationally, we want to personally thank you for choosing to be a part of the ECS Inc. International family.

We are your Electronic Component Solution.
