ENIAC PROGRAMMERS
PROJECT

RADIO, TELEVISION & PODCASTS

Kathy Kleiman and the ENIAC Programmers Project appreciate the tremendous conversations we have held with radio, TV and podcast hosts on both sides of the Atlantic and across the U.S.! Kathy's favorite podcast was the hour she spent talk with Alan Alda on his Clear+Vivid Podcast. "He read every word of my book and thought carefully about the story," Kathy said, "It was wonderful to talk to him!" Alan Alda's most powerful question: What did the ENIAC 6 think when the bomb dropped on Pearl Harbor?

Tech Refactored: Nebraska Governance and Technology Center Podcast, *The ENIAC: The Six Women Who Programmed the World's First Modern Computer,* March 31, 2023.
