

Mike Clay's 2022 NFL Projection Guide

Updated: 9/8/2022

Glossary:

- Page 2-33: Team Projections
- Page 34-45: QB, RB, WR and TE projections
- Page 46-51: Category Leader projections
- Page 52: Projected standings, playoff teams and 2023 draft order
- Page 53: Projected Strength of Schedule
- Page 54: Unit Grades
- Page 55-64: Positional Unit Ranks
- Page 65: Current Coaching Staffs

Understanding the graphics:

- *The numbers shown are projections for the 2022 NFL regular season (Weeks 1-18).
- *Some columns may not seem to be adding up correctly, but this is simply a product of rounding. The totals you see are correct.
- *Most players max out at 16 projected games played. This is related to injury rates, as a majority of players will not make it through the full 17 games.
- *Looking for sortable projections by position or category? Check out the projections tab inside the ESPN Fantasy game.
- *'Team stat rankings' is where each team is projected to finish in the category that is shown.
- *'Unit Grades' is not related to fantasy football and is an attempt at objective ranking of each team at 10 key positions. The overall grades are weighted based on positional importance. The scale is 4.0 (best) to 0.1 (worst). A full rundown of Unit Grades can be found on page 51.
- *'Strength of Schedule Ranking' is based on 2022 rosters (not 2021 team record). '1' is easiest and '32' hardest. See the full list on page 50.
- *Note that prior to the official release of the NFL schedule (generally late April), the schedule shown includes the correct opponents, but the order is simulated.
- *Have a question or notice an error? Contact Mike Clay on Twitter @MikeClayNFL
