

# Field Effect MDR + Log Retention

Streamline your cybersecurity and compliance journey with log retention.

Log retention is critical for many compliance standards and cybersecurity frameworks—yet most solutions fail to provide logging alongside effective threat detection.

Field Effect helps you achieve a high level of compliance with both flexible log retention and comprehensive cybersecurity. Store a rich history of log data tailored to your needs for future audits—without sacrificing security, simplicity, or affordability.

## Integrated cybersecurity and log retention

Field Effect MDR with log retention empowers you with the tools and support needed to help you:

### COMPLY WITH INDUSTRY FRAMEWORKS

Respond to regulatory requirements from industry-leading frameworks such as HIPAA, PCI DSS, NIST CSF, and ISO 27001 by storing security-related log data and applying cybersecurity best practices. Receive alerts mapped to select frameworks so you can understand when to take immediate action to maintain compliance.

### STREAMLINE COMPLIANCE AUDITS

Leverage compliance mapping to help streamline your auditing and understand how Field Effect aligns to various cybersecurity and security-related log retention requirements for HIPAA, PCI DSS, ISO 27001, CIS Controls, NIST CSF, and more.

### QUALIFY FOR CYBER INSURANCE

Implement best practices to help qualify for cyber insurance. Better understand your environment, improve your security posture with active and proactive security controls, and retain a history of security-relevant logs to access in the face of a security incident and avoid high insurance premiums.

## Key benefits:

- ✓ Flexible log type and duration options
- ✓ Guidance and support on compliance and cybersecurity requirements
- ✓ Requirement mapping documentation to ease audits

# Let Field Effect help you with complex compliance requirements

Field Effect MDR with log retention provides SMBs and MSPs facing compliance regulations a tailor-made solution for their needs.

**"We're constantly responding to regulatory checklists about our security measures. Field Effect gives us the ability to check off the boxes and demonstrate a high level of compliance."**

**Geoff Schaadt**  
VP of Technology - TryCycle Data Systems

## BETTER CYBERSECURITY

Simple yet sophisticated, Field Effect helps you close security gaps while addressing increasingly complex cybersecurity-related regulatory requirements, including real-time threat detection, 24/7 vulnerability scanning, full network visibility, and more. Field Effect provides the visibility needed to respond effectively and detect threats from across your environment. Protect your most important data and take the complexity out of cybersecurity.

## WORLD-CLASS EXPERTISE

Our team is here to support you on your compliance journey! Receive one-on-one guidance from industry-leading cybersecurity and compliance experts on topics including log storage, compliance requirements, and more.

## FLEXIBLE LOG RETENTION

Store your most important log data, tailored to the unique needs of your organization and applicable regulatory frameworks. Choose from a variety of flexible and cost-effective options.

	Standard Field Effect Log Retention	Extended Field Effect Log Retention	Full Security Log Retention
<b>DURATION</b>	<b>90 DAYS</b>	<b>ANNUAL INCREMENTS</b>	<b>ANNUAL INCREMENTS</b>
<b>Description</b>	Complimentary retention of Field Effect MDR and related logs, either stored locally or remotely in the cloud.	Extended retention of Field Effect MDR and related logs in remote cloud storage.	Extended retention of Field Effect MDR and cybersecurity-related logs, with storage of non-Field Effect logs in the cloud.
<b>Log type</b>	Logs that are generated directly by Field Effect or by external services that are part of the Field Effect service which are used to generate Field Effect MDR alerts.		Logs included as part of the Extended Field Effect Log Retention offering in addition to syslogs generated by external services which are not part of the Field Effect service.
<b>Retrieval</b>	Simple, on-demand retrieval.		

## Profound simplicity, powerful cybersecurity.

Field Effect MDR is an advanced cybersecurity solution that monitors and protects your entire threat surface—endpoints, networks, and cloud services—all from a single platform. No add-ons, no modules, and no gaps in your security. Field Effect MDR not only monitors every aspect of a business's threat surface, but reduces alert fatigue and false positives by aggregating data from multiple security events into simple, actionable remediation steps.
