

EPEAT Program

Continuous Monitoring Round Plan

Computers and Displays
CD-2021-03
September 2, 2021

Background

EPEAT® is a comprehensive voluntary sustainability Type 1 ecolabel that helps purchasers identify sustainable technology products and services. Central to EPEAT are conformity assurance activities that meet the technical rigor and credibility needs of the institutional purchasers who rely upon EPEAT. The EPEAT Program ensures the ongoing conformance of EPEAT-registered products through an ongoing surveillance process known as Continuous Monitoring. Continuous Monitoring activities occur throughout the year and test the ability of Participating Manufacturers to prove conformance with EPEAT Criteria on an ongoing basis.

Some Continuous Monitoring activities require that Investigations be conducted in discrete timeframes called Rounds. The EPEAT Program develops an individual plan for each Continuous Monitoring Round, which specifies the EPEAT Criteria to be investigated, the method of investigation that GEC-approved Conformity Assurance Bodies (CABs) must use and the specific dates when the Investigation activities must be completed. The EPEAT Program also selects the Participating Manufacturers and EPEAT-registered products and assigns Investigations to CABs, which must fully participate in and are responsible for implementing Continuous Monitoring Round activities with their Participating Manufacturer clients. Participating Manufacturers are required to cooperate fully with their GEC-approved CAB during Round activities.

This document contains the individual plan for Continuous Monitoring Round CD-2021-03.

Continuous Monitoring Round CD-2021-03 Investigation Activities

Continuous Monitoring Round CD-2021-03 will use documentation review to determine the conformance of products with specific EPEAT Criteria. The EPEAT Program assigns specific products and EPEAT Criteria for evaluation to GEC-approved CABs. Participating Manufacturers have a discrete time period in which they must provide evidence that supports conformance with the selected criteria. GEC-approved CABs review the documentation, make recommendations on conformity based solely on the evidence provided by Participating Manufacturers, and send Investigation Reports to the EPEAT Program, which makes the final decisions on conformity.

Continuous Monitoring Round CD-2021-03 Criteria and Product Selection

Continuous Monitoring Round CD-2021-03 is a Targeted Round focused on three Criteria the EPEAT Program has identified as having verification requirements that may be misunderstood. Manufacturers were assigned one investigation per criteria (if they had selected the criteria), and the products were selected randomly using a random number generator. Since two of the selected Criteria are Optional and one is Required, Participating Manufacturers received up to 3 investigations. Participating Manufacturers that received a Major Nonconformance in any 2020 Continuous Monitoring Round were then also assigned an additional investigation in this Round. The additional investigation assigned was an extra investigation for one of the three targeted Criteria.

While this Round is focused primarily on three targeted Criteria, there are also a series of additional Criteria being investigated due to investigations that were deferred from Continuous Monitoring Round CD-2021-02 now being reassigned. Some Investigations from CD-2021-02 were deferred due to Participating Manufacturers transferring to another Conformity Assurance Body, or product archival before the Round launched, so these Investigations were reassigned in the current Round, CD-2021-03. For these Investigations, a random number generator was used to randomly select new products and Criteria for Investigation, since products and Criteria were randomly selected in CD-2021-02.

Overview of Criteria and Products Selected	
Product Category	Computers and Displays
Number of Products Selected	70 products selected for Targeted Criteria 5 products selected for deferred Continuous Monitoring Round CD-2021-02 Investigations
Criteria Selected	Targeted Criteria
	4.1.8.1 – Chemical assessment and selection
	4.3.1.1 – Identification of materials and components requiring selective treatment
	4.9.4.1 – Renewable energy use by manufacturer
	Randomly Selected Criteria (to replace deferred CD-2021-02 Investigations)
	4.2.1.1 – Minimum post-consumer recycling plastic, ITE-derived post-consumer recycled plastic or bio based plastic content
	4.4.1.1 – Service support
	4.4.2.3 – Spare parts
	4.9.1.1 – Third party certified environmental management system (EMS) for design and manufacturing organizations
4.10.2.1 – Public disclosure regarding conflict minerals in products	

Continuous Monitoring Round CD-2021-03 Schedule

Phase of Round	Date
Preparation Phase	
CABs notified of Round schedule and activities by EPEAT	August 23, 2021
CABs receive Round assignments and materials from EPEAT	August 30, 2021
Week of Round Training for CABs	Week of September 6, 2021
Investigation Phase (CABs performing investigations)	
Investigative period begins	September 22, 2021
Investigative period ends	December 21, 2021
Deadline for CAB submission of Investigation Reports to EPEAT	January 12, 2022
Deliberation Phase (EPEAT making conformity decisions)	
Deliberation period begins	January 13, 2022
CABs receive Investigation Reports with final conformity decisions from EPEAT	February 11, 2022
Corrective Action Phase (Participating Manufacturers restoring accuracy of EPEAT Registry)	
Corrective action period begins	February 26, 2022

Corrective action period ends	March 28, 2022
Deadline for CAB submission of corrective action reports to EPEAT	April 5, 2022
CABs receive final Investigation Reports with correction decisions from EPEAT	April 21, 2022
Reporting Phase	
Outcomes Report published	April 29, 2022

Process Details – Continuous Monitoring Using Documentation Review

Continuous Monitoring Rounds that use documentation review activities are conducted in accordance with EPEAT Policy Manual (P65) and EPEAT Conformity Assurance Implementation Manual (also called EPEAT Requirements of CABs and Conformity Assurance Procedures) (P66) in effect at the time of the Round.

- The EPEAT Program downloads a list of all active EPEAT-registered products, select products from the list for investigation and assigns EPEAT Criteria to products, as per the Round Plan.
- GEC-approved CABs receive the list of products and EPEAT Criteria selected for their Participating Manufacturer clients but do not yet notify the Participating Manufacturers of the imminent investigations.
- The EPEAT Program publishes the Round Plan on the start date of the Round.
- On the start date of the Round, GEC-approved CABs notify the Participating Manufacturers that their products have been selected for investigation and begin the evidence collection process.
- Participating Manufacturers have a discrete time period in which they must provide evidence that supports conformance with the selected criteria.
- GEC-approved CABs review the documentation, make recommendations on conformity based solely on the evidence provided by Participating Manufacturers, and prepare an Investigation Report for each product.
- GEC-approved CABs submit the Investigation Reports to the EPEAT Program. At the same time, CABs forward these same Reports to the Participating Manufacturers.
- The EPEAT Program reviews Investigation Reports and makes the final decisions on conformity. The EPEAT Program then sends the Investigation Reports back to the GEC-approved CABs.
- GEC-approved CABs send the Investigation Reports with the final decision on conformity to the Participating Manufacturers.
- For decisions of nonconformance, Participating Manufacturers must make corrections within 30 calendar days to restore the accuracy of the EPEAT Registry.
- The EPEAT Program publishes an Outcomes Report identifying the nonconforming products and Participating Manufacturers, as well as the actions taken to restore accuracy of the EPEAT Registry.
