### III. VERIFICATION PROCESS

The Verification Round will proceed in accordance with current procedures, as outlined below.

1. The EPEAT Scheme will take a “snapshot” of the Registry. Products will be selected from this document.
2. The EPEAT Scheme will instruct Conformity Assurance Body to proceed with product purchase and the Level 2/3 investigations.
3. After obtaining the products, the Conformity Assurance Body will notify their subject Manufacturers that their products are being investigated, if applicable.
4. The EPEAT Scheme will publish the Verification Round Plan on EPEAT.net.
5. The Conformity Assurance Body instructs a laboratory to conduct testing and analysis.
6. The laboratory conducts Level 2 / 3 testing and creates a Lab Report which is delivered to the Conformity Assurance Body.
7. The Conformity Assurance Body reviews all Lab Reports to ensure they are clear, complete and the evidence supports the recommendation, and forwards the Reports and supporting evidence

to the EPEAT Scheme. At the same time, Conformity Assurance Body will forward the draft Reports (without the final Conformity Decision Panel’s decision) to the subject Manufacturers.

8. The Conformity Decision Panel will review the Lab Reports and make a decision regarding conformity. The products and Manufacturers will not be disclosed to the Conformity Decision Panel, as the Panel must be blind to the specific product and Manufacturer for which they are making conformity decisions.
9. Conformity Assurance Body will inform the subject Manufacturers of the Conformity Decision Panel’s conformity decision. For decisions of Non-Conformance, Manufacturers are required to take corrective action within 14 calendar days to restore the accuracy of the EPEAT Registry.
10. The EPEAT Scheme will publish a "Verification Round Outcomes Report" identifying the nonconforming products and Manufacturers, as well as the action taken to restore accuracy of the Registry.
