

YEP!
This
could
be
YOU

The headspace Youth Employment Program (YEP) is supporting young people just like you - aged 15-25 who are experiencing mental health barriers to employment - to find real work that's just right for you.

Our team of Vocational and Youth Mental Health Specialists will work closely with you towards achieving your work and study goals. The YEP program can assist with identifying goals, navigating Centrelink, job search strategies, employer introductions, interview preparation, and follow-along support once you get a job.
