EpicCare Link

EpicCare Link is a secure web portal that offers non-UConn Health providers access to information stored in our electronic health record regarding their referred and admitted patients.

Care Everywhere

Epic's Care Everywhere is a tool within our electronic health record that facilitates the permissible exchange of electronic health information among participating healthcare organizations involved in your care. Local healthcare organizations that participate in Care Everywhere include, but are not limited to Hartford HealthCare, Yale New Haven Health, and Trinity Health Of New England.

You may choose to opt out of allowing UConn Health to share your information through Care Everywhere. To do so, please contact the Office of Healthcare Compliance & Privacy at 860-679-6060 or ohcp@uchc.edu. Please note that State and Federal laws allow healthcare providers to share your health information without your written permission under certain circumstances, including for treatment purposes. Opting out of Care Everywhere does not change UConn Health's right to permissibly obtain and disclose your information through other means without your authorization.

Connie

Connie is Connecticut's statewide health information exchange (HIE). This HIE allows healthcare professionals and patients to permissibly access and securely share portions of a patient's medical information electronically. UConn Health participates in Connie as mandated by the State of Connecticut.

You may opt out of Connie by contacting Connie directly at 1-866-987-5514, or as otherwise described on their website at conniect.org.
