

Session 2C – Data Rich and Information Poor: How Linked Student Data Can Inform Policy and Decision-making

DR KAREN ROBSON
PROFESSOR AND ONTARIO RESEARCH CHAIR IN ACADEMIC ACHIEVEMENT AND AT-RISK YOUTH
MCMASTER UNIVERSITY

1

First Example:

- ▶ HEQCO Community Research Project with Hamilton Community Foundation, HWDSB, HWCDSB, Mohawk College and McMaster

Higher Education Quality Council of Ontario
An agency of the Government of Ontario

Priorities ▾ Research ▾ Data and Resources ▾ About Us

Hamilton Community Research Partnership project shows the potential benefits of data-sharing coalitions

2

Second example

- ▶ Anti-Racism Act (2017) and the collection of student demographic characteristics

Ontario School Boards Require Clearer Guidance to Collect Student Census Data

📅 July 13, 2023 💬 No Comments

Recent Ontario legislation requiring school boards to collect identity-based data is an important step toward greater equity. However, issues with implementation have meant results have been delayed, inconsistent or limited. To facilitate the collection of high quality and comparable data, government
