To: Co
From: Erin McPhee Anderson - City Engineer
Date: July 15, 2024
Subject: Discussion and Possible Action to Reduce the Speed Limit on Carmichael Road between Coulee Road and Hanley Road.

Background:

The Council approved a 35mph speed limit reduction on Carmichael Road between Coulee Road and Faith Community Church at the June 21, 2021, Common Council meeting.

The speed limit between Coulee Road and the southern city limits is current 45mph. Staff recommends changing the speed limit to 35mph between Coulee Road to Hanley Road. A proposed signage plan is attached.

By statute, within a City/Village corporate limits the speed limit is 25mph unless posted otherwise (346.57 (4) e.). The City can control the speed limit within the corporate boundaries and does not need State approval.

Funding:

Public Works general operating budget.

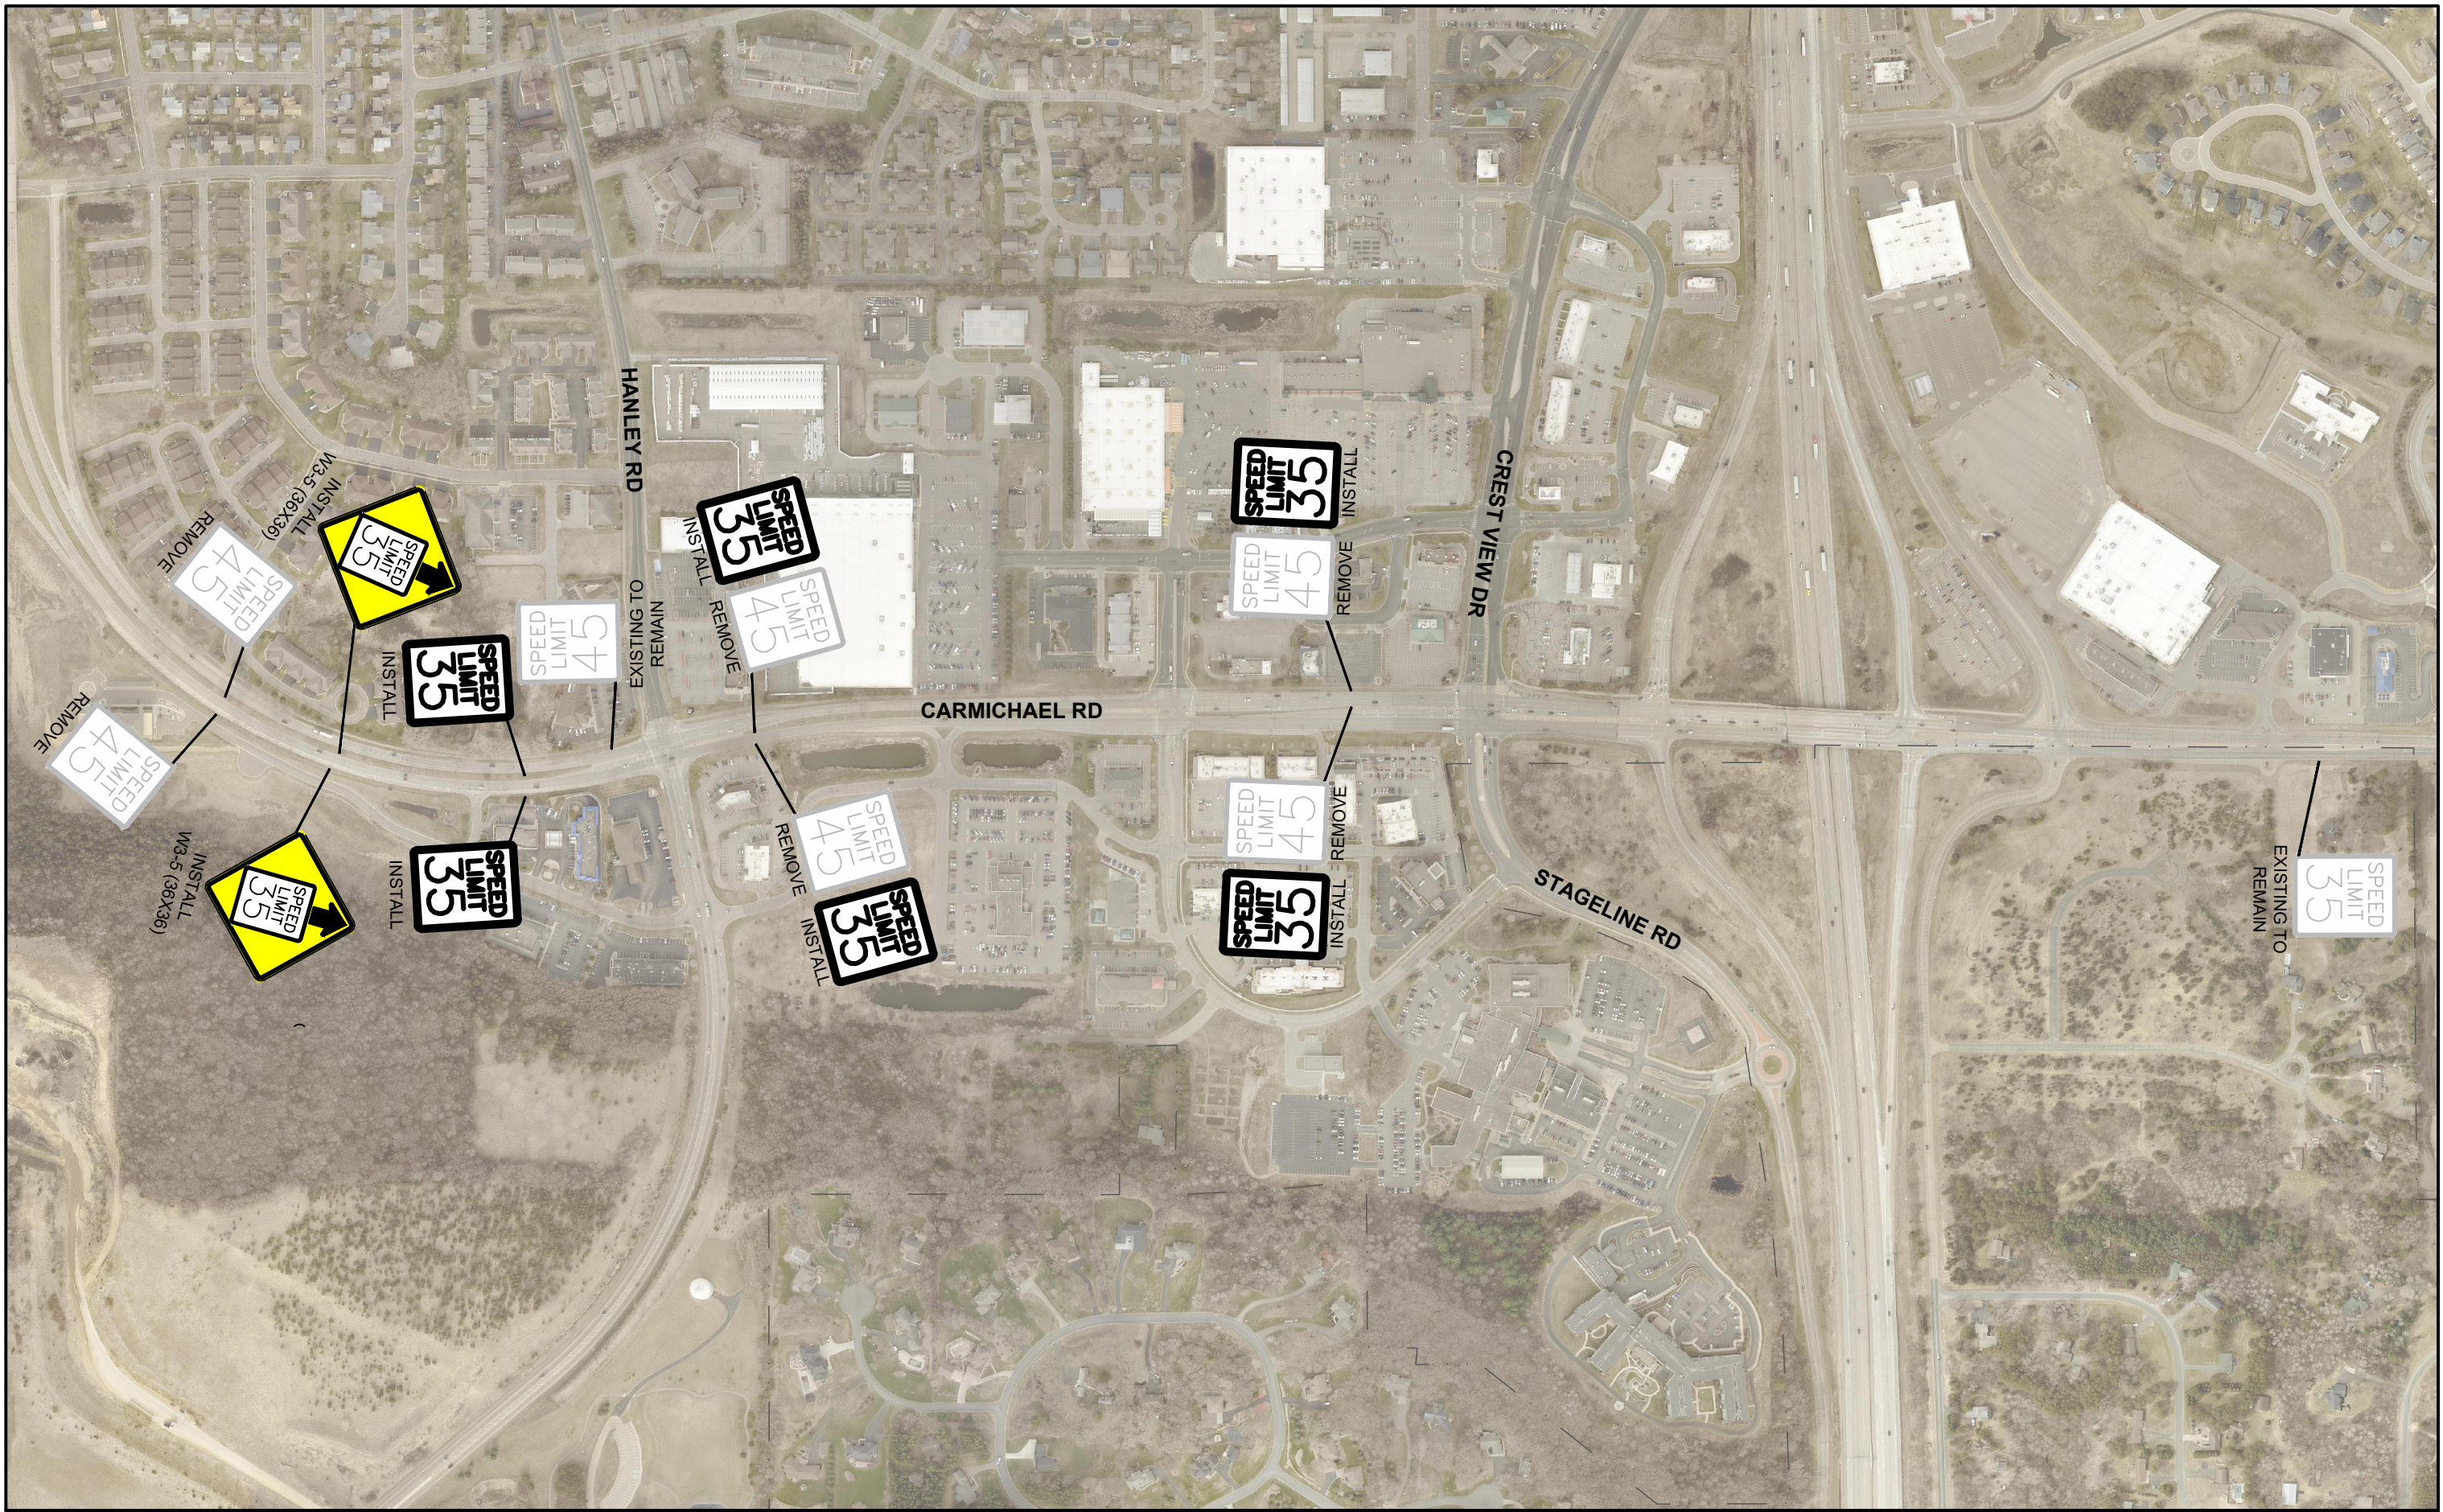

Recommended Action:

Recommend reducing the speed limit on Carmichael Road to 35 MPH between Coulee Road and Hanley Road.
