

Everyday changes. Meaningful impact.

The [Green] Print

You're doing your part. And so are we.

Even small changes can add up to meaningful impact.

It's never been easier to take the first step. Start below.

Are you considering the environment?

Buy eco-conscious

Look for the badges and select devices made with recycled materials and packaging.

Choose **ENERGY STAR** certified electronics to save energy and money.

Reduce waste (and cost) with **Samsung Certified Re-Newed** products.

Love it longer. Durable products with long lifespans create less waste.

Practice responsible recycling

Ditching your e-waste is easy. With Samsung's convenient **recycling program**, you can contribute to the 100M pounds collected each year in the U.S.

Drop your device off at one of 670+ uBreakiFix locations.

Dispose of old monitors, batteries, cords and more at 1,700+ community drop-off locations and through Call2Recycle.

Schedule old home appliance pick-up through Samsung customer service.

Commit to upcycling

You may be missing the best upcycling opportunity in your house — old electronics.

Download the **SmartThings app** to give old gadgets new life through Galaxy Upcycling at Home.

Upcycle Galaxy devices into **pet care tools, home energy monitors** and more.

Take care with repair

Fixing a device is easier and more convenient than ever before.

Walk-in: Get same-day service at 900+ locations, like uBreakiFix, Best Buy and more.

At-home: A Samsung Certified Technician can come to you.

Mail-in: Stay home and let us do the work. We'll send it back when it's ready!

Self-repair: DIY with our helpful guides, support, and genuine parts.

Empower the future

Enter the **Solve For Tomorrow STEM competition**, for students grades 6th through 12th.

From small steps to big leaps, everyone can get involved in making a difference.

Imagine how STEM can create change in your community.

Build, dream, develop, and earn up to \$100,000 for your school!
