# Career Objective For Student

**Jane Doe** 123 Maple Street, Anytown, ST 12345 (123) 456-7890 | email@example.com  
LinkedIn: linkedin.com/in/janedoe

## Career Objective

Eager and detail-oriented Computer Science major at XYZ University seeking an internship position where I can utilize my strong problem-solving skills and passion for software development to contribute to innovative projects and gain practical industry experience.

## Education

**XYZ University, Bachelor of Science in Computer Science** Expected Graduation:  
May 2026

- GPA: 3.85/4.0
- Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development

## Relevant Experience

**Software Development Intern** ABC Technology, Inc. | June 2023 - August 2023

- Developed new features and fixed bugs for ABC Technology's main product using Python and JavaScript.
- Collaborated with a team of developers to design a new API that improved data retrieval speeds by 30%.
- Participated in bi-weekly Agile sprints, contributing ideas for system enhancements and troubleshooting issues.

---

## Projects

### Mobile App for Campus Navigation (Personal Project)

- Designed and developed a user-friendly mobile application to help new students navigate XYZ University campus.
- Utilized GPS and mapping APIs to provide real-time location services.
- Implemented features such as event locations, class schedules, and student meet-ups.

## Skills

- **Languages:** Python, Java, JavaScript, SQL
- **Tools:** Git, Docker, Jenkins, Visual Studio Code
- **Frameworks:** React, Node.js, Flask

## Awards and Honors

- Dean's List, XYZ University, 2022-2024
- First Place, XYZ University Hackathon, Spring 2024

## Extracurricular Activities

- Member, Computer Science Club, XYZ University, 2022-Present
- Volunteer, Local Code Camp for High School Students, Summer 2023
