

Ensure Excellence in Compliance as a Compliance Engineer at Intersoft Electronics!

At Intersoft Electronics, we're at the forefront of engineering excellence, specializing in air traffic control (ATC) and air-defence radar solutions. Our mission is to deliver cutting-edge solutions that ensure comprehensive and reliable radar coverage, making airways safer worldwide. We're on the lookout for a passionate and experienced:

Compliance Engineer

Are you dedicated to upholding compliance standards in the dynamic world of engineering? Intersoft Electronics, a trailblazer in air traffic control and air-defense radar, is seeking a meticulous Compliance Engineer to join our team and play a pivotal role in maintaining the highest industry standards.

Your Role: Compliance Engineer

As a vital member of our engineering department, you will be the guardian of regulatory compliance, ensuring that our products meet all necessary industry standards. Your expertise will be instrumental in navigating complex compliance requirements, conducting thorough assessments, and collaborating with cross-functional teams to guarantee adherence to regulations.

Your Talents:

- In-depth knowledge of compliance standards and regulations in the aerospace or defense industry.
- Minimal Master's degree or proven experience
- Experience in interpreting and implementing regulatory requirements.
- Ability to conduct comprehensive compliance assessments and audits.
- Collaborative skills to work with engineering teams, ensuring continuous compliance throughout the development process.
- Experience leading a team is a plus
- Strong documentation skills to maintain and update compliance records.

What We Offer:

- Congestion-free working environment with flexible hours, including the option to work up to 2 days at home depending on the job content.
- Engaging team activities with friendly colleagues.
- Varied job in a stimulating, high-tech working environment.
- Continuous opportunities for personal and professional development.
- Permanent position with a market-based salary, supplemented with company benefits including a car.

Interested?
