

# ams OSRAM Compliance Statement to REACH Regulation (EC) No. 1907/2006 for its Semiconductor Products

Entered into force on 1 June 2007, Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) aims to improve the protection of human health and the environment from the risks posed by chemicals, while enhancing the competitiveness of the business industries.

The Candidate List of Substances has been updated on **7<sup>th</sup> November 2024** (242 substances of very high concern - SVHC). We, based on best available information provided by our suppliers, declare:

- None of the Candidate List substances is exceeding 0.1% (weight) in a semiconductor article
- Our semiconductor products do not contain substances as listed in REACH Annex XVII exceeding the relevant limits
- ams OSRAM semiconductor products are “articles”, not chemicals; Safety Data Sheets are not applicable

More information on the regulation and related directives to which our semiconductor products comply can be viewed here:

- REACH – SVHC candidate List (<https://echa.europa.eu/candidate-list-table>)
- REACH Annex XVII Substances (<https://echa.europa.eu/substances-restricted-under-reach>)

We continue to monitor our semiconductor products and the supply chain for the requirements posed by the regulations. For other inquiries, please visit our webpage ([Product stewardship - semiconductor | ams OSRAM \(ams-osram.com\)](#)) or contact your respective sales representative for the material declarations of specific semiconductor products.

The information provided in this statement represents our knowledge and belief as of the date that it is provided. We base our knowledge and belief on information provided by third parties and make no representation or warranty as to the accuracy and shall have no liability for the consequences of use of such information. We have taken and continue to take reasonable steps to provide representative and accurate information but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. We and our suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release.
