

# **Compliance Statement to Persistent Organic Pollutants (POPs) for its semiconductor products in brand ams and OSRAM**

**We hereby certify that products manufactured by ams OSRAM are fully compliant with the related requirement of the Regulation (EU) 2019/1021 concerning Persistent Organic Pollutants, including Commission Delegated Regulations amending Annex I to Regulation (EU) 2019/1021.**

**More information on the list of substances subject to Persistent Organic Pollutants (POPs) can be viewed here:**

- [List of substances subject to POPs Regulation - ECHA \(europa.eu\)](#)

**We have installed a system within our company to ensure compliance with the applicable legal requirement. This system includes products, parts and materials procured from suppliers.**

**We continue to monitor our semiconductor products and the supply chain for the requirements posed by the regulations. For other inquiries, please visit our webpage ([ams OSRAM Semiconductor Environmental Product Stewardship](#)) or contact your respective sales representative for the material declarations of specific semiconductor products.**

The information provided in this statement represents our knowledge and belief as of the date that it is provided. We base our knowledge and belief on information provided by third parties and make no representation or warranty as to the accuracy and shall have no liability for the consequences of use of such information. We have taken and continue to take reasonable steps to provide representative and accurate information but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. We and our suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release.
