

Compliance Statement to EU Packaging Directive 94/62/EC for its semiconductor products in brand ams and OSRAM

Directive 94/62/EC on packaging and packaging waste regulates hazardous chemicals and heavy metals in packaging materials placed on the EU market. As defined in Article 3, "packaging" shall mean all products made of any materials of any nature to be used for the containment, protection, handling, delivery, and presentation of goods. This declaration should cover all types of packaging for our products delivered directly to our customers.

We, based on best available information provided by our suppliers, declare our compliance to the EU Packaging Directive 94/62/EC and its amendments, incl. Directive (EU) 2018/852. The threshold limits (concentration below 100 ppm of total heavy metals: lead, chromium VI, cadmium, and mercury in the packaging and packaging materials), according to the directive, are not exceeded.

Details on the EU Packaging Directive are available here:

- [EU Packaging Directive 94/62/EC \(consolidated version 2018\)](#)
- [EU Information on Packaging Waste](#)

We continue to monitor the packaging materials for our products and the supply chain for the requirements posed by the regulation. For other inquiries, please visit our webpage: ([Product stewardship - Semiconductor | ams OSRAM \(ams-osram.com\)](#)) or contact your respective sales representative for the material declarations of specific semiconductor products.

The information provided in this statement represents our knowledge and belief as of the date that it is provided. We base our knowledge and belief on information provided by third parties and make no representation or warranty as to the accuracy and shall have no liability for the consequences of use of such information. We have taken and continue to take reasonable steps to provide representative and accurate information but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. We and our suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release.
