

The Liquid Software Company

# DISCLAIMER

This presentation contains forward-looking statements that reflect our current views with respect to, among other things, the operations and financial performance of JFrog Ltd. and its subsidiaries (collectively, "JFrog," "we," "us," or "our"). All statements other than statements of historical facts contained in this presentation, including statements regarding matters such as our industry, business strategy, goals, and expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources and other financial and operating information, may be forward-looking statements. We may, in some cases, use words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "predicts," "intends," "trends," "plans," "estimates," "anticipates," or the negative version of these words or other comparable words that convey uncertainty of future events or outcomes, to identify forward-looking statements in this presentation. The forward-looking statements contained in this presentation are based on management's current expectations and are subject to uncertainty and changes in circumstances. Although we believe that the assumptions underlying the forward-looking statements are reasonable, there can be no assurance that management's expectations, beliefs, and projections will result or be achieved. There are a number of factors, many of which are beyond our control, that could cause actual results to differ materially from the results anticipated by these forward-looking statements, including, among others: larger well-funded companies shifting their existing business models to become more competitive with us; our ability to provide or adapt our platform for changes in laws and regulations or public perception, or changes in the enforcement of such laws, including relating to data privacy; the effects of companies more effectively catering to our customers by offering more tailored products or platforms at lower costs; adverse general economic and market conditions; the effects of declining demand for sales and marketing subscription platforms; our ability to improve our technology and keep up with new processes for data collection, organization, and cleansing; our ability to provide a highly accurate, reliable, and comprehensive platform moving forward; our reliance on third-party systems that we do not control to integrate with our system and our potential inability to continue to support integration; our ability to successfully integrate technology from recent acquisitions; our ability to adequately fund research and development potentially limiting introduction of new features, integrations, and enhancements; our ability to attract new customers and expand the existing subscriptions; a decrease in participation in our contributory network or increased opt-out rates impacting the depth, breadth, and accuracy of our platform; and our failure to protect and maintain our brand and our ability to attract and retain customers. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. Furthermore, many of the foregoing risks and uncertainties are, and we expect will be, exacerbated by the COVID-19 pandemic and any worsening of the global business and economic environment. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, investments, or other strategic transactions we may make. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Any forward-looking statement made by us in this presentation speaks only as of the date of this presentation. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise, except as required by law.

This presentation includes certain financial measures not presented in accordance with generally accepted accounting principles in the United States ("GAAP"), including Adjusted Operating Income, and Adjusted Operating Income Margin, which are used by management in making operating decisions, allocating financial resources, and internal planning and forecasting, and for business strategy purposes, and which have certain limitations, and should not be construed as alternatives to financial measures determined in accordance with GAAP. The non-GAAP measures as defined by us may not be comparable to similar non-GAAP measures presented by other companies. Our presentation of such measures, which may include adjustments to exclude unusual or non-recurring items, should not be construed as an inference that our future results will be unaffected by other unusual or non-recurring items.

This presentation includes market and industry data and forecasts that we have derived from independent consultant reports, publicly available information, various industry publications, other published industry sources, and our internal data and estimates. Independent consultant reports, industry publications, and other published industry sources generally indicate that the information contained therein was obtained from sources believed to be reliable. The inclusion of market estimations, rankings, and industry data in this presentation is based upon such reports, publications, and other sources and our internal data and estimates and our understanding of industry conditions. Although we believe that such information is reliable, we have not had this information verified by any independent sources. You are cautioned not to give undue weight to such estimates. All trademarks, service marks, and trade names appearing in this presentation are the property of their respective holders.

# CUSTOMER SUCCESS

## CHALLENGE

*Box needed to manage the delivery of thousands of microservices in a cloud-native infrastructure*

*Cisco needed to allow global development teams to access the right software while maintaining centralized governance and control*

*Manual processes were causing inefficient delivery and release of software to global teams, costing Nokia time and money*

## JFROG SOLUTION

JFrog Cloud Enterprise X **automates and secures software releases** from code to cloud

JFrog Enterprise+ **automatically provisions software** across the organization

JFrog Enterprise+ **automates software releases** across the organization, providing increased throughput

## RESULTS

**90x**

Increase in release speed in two years\*

**8 Million+**

Software packages delivered by just 12 administrators\*

**52 days 6 minutes**

Decrease in time to update software to the Edge\*

*\* Results as reported by specific customer's employee. Other organizations may experience different results.*

# WHY WE WIN

# CONSISTENT REVENUE GROWTH

## Total Revenue

\$MM

(1) Based on the midpoint of our total revenue guidance for FY'24.  
(2) Based on the midpoint of our total revenue guidance for 1Q'24

# HIGH NET AND GROSS DOLLAR RETENTION

- (1) Our net dollar retention rate compares our annual recurring revenue (“ARR”) from the same set of customers across comparable periods. Our ARR includes monthly subscription customers, so long as we generate revenue from these customers. We annualize our monthly subscriptions by taking the revenue we would contractually expect to receive from such customers in a given month and multiplying it by 12. We calculate net dollar retention rate by first identifying customers (the “Base Customers”), which were customers in the last month of a particular quarter (the “Base Quarter”). We then calculate the contracted ARR from these Base Customers in the last month of the same quarter of the subsequent year (the “Comparison Quarter”). This calculation captures upsells, contraction, and attrition since the Base Quarter. We then divide total Comparison Quarter ARR by total Base Quarter ARR for Base Customers. Our net dollar retention rate in a particular quarter is obtained by averaging the result from that particular quarter with the corresponding results from each of the prior three quarters.
- (2) We calculate gross dollar retention rate by first calculating Base Quarter ARR for Base Customers minus ARR attrition for those customers between the Base Quarter and the Comparison Quarter, divided by their contracted Base Quarter ARR. ARR attrition for those customers for each quarter is calculated by identifying any customer that has zero ARR at the end of the Comparison Quarter, but had positive ARR in the Base Quarter, and aggregating the dollars of ARR generated by each such customer in the Base Quarter. Our gross dollar retention rate reflects only customer losses and does not reflect customer expansion or contraction. Our gross dollar retention rate in a particular quarter is obtained by averaging the result from that particular quarter with the corresponding results from each of the prior three quarters.

# FROG

The word 'FROG' is rendered in a large, bold, bright green sans-serif font. A dynamic splash of water, depicted in shades of grey and white, erupts from the center of the 'O', splashing upwards and outwards, partially obscuring the letters 'R' and 'G'. The splash is highly detailed, showing individual droplets and a crown-like shape at its base.

**MAY THE FROG BE WITH YOU!**
