

**Arkadii Arinstein**  
**Research Professor Associate**  
**Office:** 6, MR  
**Phone:** 829-2911; **Fax:** 822-8931  
**e-mail:** [mearin@technion.ac.il](mailto:mearin@technion.ac.il)

## Curriculum Vitae

### Education

- 1977: M.Sc. (with honors), Physical Department, Tomskii State University, Tomsk, Russia

### Academic Degrees

- 1982: Ph.D., Landau Institute of Theoretical Physics, USSR Academy of Sciences, Moscow, Russia
- 1995: Doctor of Sciences (habilitation), N.N. Semenov Institute of Chemical Physics, Russian Academy of Sciences, Moscow, Russia
- 1999: The government certificate of Full Professor, Moscow, Russia

### Research Interests

- **Polymer Physics**
- **Nanotechnology:** polymer nanofibers, polymer system under confinement
- **Kinetic processes in dispersion systems:** aggregation processes, structure formation, self-ordering in the kinetic systems, kinetics of chemical reactions in condensed phase
- **Transport phenomena in heterogeneous media**

### Membership in Professional Societies

Vinogradov Society of Rheology, Russia: Member.  
American Physical Society: Member.  
IOP Institute of Physics: Member.

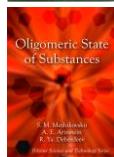

### Honors and Awards

The laureate of the Annual Vinogradov Prize awarded by Vinogradov Society of Rheology (2019);  
The laureate of the State Grant for Outstanding Scientists of Russia (1995);  
Soros Foundation Grant awarded by the American Physical Society (1993).

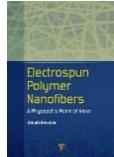

### Books

S.M. Mezhikovskii, A.E. Arinstein, R.Ja. Deberdeev.  
**Oligomeric state of material.**  
-320 p. Publishing House “Nauka”,  
Moscow. 2005 (in Russian).

S.M. Mezhikovskii, A.E. Arinstein, and R.Ja. Deberdeev.  
**Oligomeric State of Substances.**  
Series: Polymer Science and Technology.  
Nova Publishers, 2009.

A. Arinstein.  
**Electrospun Polymer Nanofibers.**  
-250 p. Pan Stanford Publishing, 2017.  
ISBN 9789814745277.

## Selected Publications

- Sh. Deng, A. Arinstein, E. Zussman. “Size-Dependent Mechanical Properties of Glassy Polymer Nanofibers via Molecular Dynamics Simulations.” Journal of Polymer Science Part B: Polymer Physics **55**, 506–514, 2017.
- I. Khamaysi, A. A. Ammar, G. Vasilyev, A. Arinstein, Y. Chowers, and E. Zussman. “Differentiation of Pancreatic Cyst Types by Analysis of Rheological Behavior of Pancreatic Cyst Fluid.” Scientific Reports **7**, 45589, 2017.
- R. Pogreb, R. Loew, E. Bormashenko, G. Whyman, V. Multanen, E. Shulzinger, A. Abramovich, D. Rozban, A. Shulzinger, E. Zussman, A. Arinstein, G. Vasilyev, Al. Ya. Malkin. “Relaxation spectra of polymers and phenomena of electrical and hydrophobic recovery: interplay between bulk and surface properties of polymers.” Journal of Polymer Science Part B: Polymer Physics **55**, 198–205, 2017.
- G. Vasilyev, M. Burman, A. Arinstein, and E. Zussman. “Estimating the degree of polymer stretching during electrospinning: an experimental imitation method.” Macromolecular Materials and Engineering **302**, 1600554, 2017.

### **Chapters in books**

- A. Arinstein.“*Supermolecular structure formation during electrospinning, and its effect on electrospun polymer nanofiber unique features.*” In: “Problems of Nonlinear Mechanics and Physics of Materials” Collection of Papers dedicated to the 80th birthday of Professor Leonid I. Manevitch. Springer. 2018.
- L. Persano, F. Cardarelli, A. Arinstein, S. Uttiya, E. Zussman, D. Pisignano, A. Camposeo. “*3D printing of optical materials: an investigation of the microscopic properties.*” *Organic Photonic Materials and Devices XX*. Book Series: Proceedings of SPIE **10529**, UNSP 105290V, 2018
- A. Arinstein.“*The evolution of polymer system during electrospinning: from a semi-dilute polymer solution in to a non-equilibrium state.*” In: “Nonlinearity: Problems, Solutions, Applications.” Ed. by L. Uvarova, A. Latyshev. Nova Science Publishers, Inc. 2017, p. 203–232.
- A. Arinstein. “*Spontaneous symmetry breaking in a thermodynamic system of pulleys.*” In: “Problems of Nonlinear Dynamics and Condensed Matter Physics” Collection of Papers dedicated to the 75th birthday of Professor Leonid I. Manevitch. Moscow, Russia, 2013 p. 177.
