FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface for an electro-anatomical mapping application showing our new design; and,
FIG. 2 is a second image thereof.

See application file for complete search history.

The appearance of the image transitions sequentially between the images shown in FIGS. 1 through 2. The process or period in which one image transitions to another forms no part of the claimed design. The outermost broken line rectangle illustrates a display screen and forms no part of the claimed design. The remaining broken lines, illustrating portions of the graphical user interface, forms no part of the claimed design.
