

# EXTEND THE LIFE OF YOUR CONCRETE

PROSOCO SingleStep® is an acrylic-silicone blend for curing and weatherproofing new and existing concrete in one easy step. SingleStep quickly penetrates to form a water-repellent gel in the pores and a semi-glossy film on the surface. This film helps keep concrete moist until it reaches maximum hardness. The cured concrete resists damaging water penetration, salts, de-icer chemicals and acids.

## EASY

A fast and effective alternative to products that require costly and time consuming processes

## SIMPLE

Eliminates the need to strip curing compound and later apply water repellent

## LASTING

Keeps harmful de-icing salts out of concrete and maintains siloxane components to ensure longterm performance

Traffic  
ready after  
24 hours

SingleStep is ideal for high traffic areas like walkways, parking garages and athletic stadiums. It can also be used on engineered concrete structures and decorative concrete.

WE ARE  
WHERE  
YOU ARE.

**PROSOCO's nationwide network** of field reps and technical advisers from coast to coast are here to help solve your biggest problems, your smallest problems and everything in between.
