

THERMAL-GRIP MASONRY VENEER ANCHOR

The Thermal-Grip[®] Masonry Veneer Anchor from TRUFAST[®] Walls helps solve the challenge of thermal-bridging, air and water hold-out, and labor cost. It is designed to anchor brick veneer and continuous insulation to steel or wood stud substrates while maintaining thermally efficient design and air barrier performance.

 **STOPS AIR INFILTRATION** **MINIMIZES THERMAL-BRIDGING** **STOPS WATER INFILTRATION** **INSTALLS EASY & FAST** **WORKS ON ALL SUBSTRATES** **PERFECT FOR PROSOCO AIR BARRIER SYSTEMS**
