

PROJECT SUMMARY

Chile

PROJECT NAME

Climate Change and Native Vegetation Strategy

GRANT OBJECTIVE AND ACTIVITIES

The project supporting ongoing efforts to explore and obtain different sources of financing to support implementation of the National Strategy on Climate Change and Vegetation Resources, which is positioned in the NDC as a key element of national climate mitigation and adaptation efforts in the LULUCF sector. It builds on previous analytic work supported by WBG and other funders. The project also supports technical and financial analyses to support Chile's efforts in building project proposals aimed at securing financing to support Chile's NDC targets in the LULUCF sector. Chile is a member of the [NDC Partnership](#).
