A INTRODUCTION

A.1 Purpose

- a) The International Triathlon Union is the sole governing body, responsible to enact Competition Rules for Triathlon, Duathlon, Winter Triathlon, Aquathlon and other modern multi sports;
- b) The International Triathlon Union Technical Committee (ITU-TC) will ensure that technical aspects of ITU competitions are of the highest quality;
- c) The ITU Competition Rules specify the conduct and behaviour of competitors during ITU competitions. Where the ITU Competition Rules do not specify, the rules of FINA, UCI, FIS and IAAF will apply in their specific segment;
- d) The ITU Event Organizers Manual sets safety and logistical standards for host National Federations (NFs) and to the Local Organizing Committee (LOC);
- e) The ITU Technical Officials (ITO) Program sets the standards for certifying ITU Technical Officials;
- f) Some rules apply only to the World Championships. Rules intended only for the Triathlon and Duathlon World Championships are designated with an asterisk (*);
- g) Authority to sanction and enforce Competition Rules at International level events is retained exclusively by ITU, but initial sanctioning is to be conducted and clearances gained from NF civil authorities by Associations in which those events are staged, and recommendations made to ITU as to the suitability or otherwise of the events for sanctioning. Final sanctioning endorsement of International level events by the ITO/NF provides assurance that the event is planned and structured to be safe and fair.

A.2 Intention

The ITU Competition Rules are intended to:

- a) Create an atmosphere of sportsmanship, equality, and fair play;
- b) Provide safety and protection;
- c) Emphasize ingenuity and skill without unduly limiting the competitor's freedom of action;
- d) Penalize competitors who gain an unfair advantage;
- e) Endorse the principle that Triathlon and Duathlon are individual sports and encourage individual performance and initiative.

Definitions of all terms used in these Competition Rules are provided at **Appendix D**. Any difficulty in the interpretation or application of these Rules should be referred to the ITU Technical Committee without delay.

A.3 Modifications

- a) These rules will be adapted for other modern multi-sport competitions, which fall within the jurisdiction of ITU, i.e. Duathlons, Winter Triathlons, Indoor Triathlons, Aquathlons, Canoe Triathlons, Off-Road Triathlon/Duathlon and Team Competitions;

- b) A competitor must not be permitted an advantage not intended by a rule. To implement this, many of the rules are in general terms. This eliminates a multiplicity of rules and provides officials with authority to adapt the rules to fit conditions. Officials base their judgment on whether an advantage, not intended by the rules, has been gained;
- c) ITU Competition Rules will be applicable to international competitions hosted by National Federations (NFs) affiliated to ITU.

A.4 Exceptions

These ITU Competition Rules will be applicable to all events sanctioned by ITU and are to be implemented by its appointed Technical Delegate as appropriate. Where the ITU Competition Rules conflict with the laws of the jurisdiction in which the event is to be held, those laws will override the ITU Competition Rules to the extent of the inconsistency, and competitors must be notified of the implications of these laws as early as possible and not later than prior to the start of the event. Exceptions for special circumstances in a particular event may only be gained from ITU with prior approval. A request for an exception to these Rules must be made in writing to the ITU Technical Committee (ITUTC) through the NF to whom the application has been submitted or is being submitted.

A.5 Special Rules

A race Technical Delegate may approve the addition of special rules for a particular race, provided that:

- a) Each additional special rule does not conflict with another ITU Competition Rule;
- b) Each additional special rule is made available in written form and is announced to the participants before the event; and
- c) Each additional special rule and the reasons for its inclusion are advised to the ITUTC before the day on which the event is to be conducted. The ITUTC may invalidate the incorporation of an additional special rule only on the authority of the ITU Executive Board.

A.6 Unauthorized Exceptions or Additions

The unauthorised exception to or addition of a Competition Rule will prevent an event from being sanctioned and will invalidate a sanction, which has already been granted to an event. This could result in legal complications, particularly in the case of accidents during the event and in subsequent requests for approval from NFs and/or municipal authorities to use roads and waterways. Insurance authorities have also warned that claims made under such circumstances may be considered invalid.

A.7 Rule Updates

These Competition Rules may be changed from time to time by the ITUTC in its absolute discretion, under the direction of the ITU. Any such rule change(s) shall be advised in writing to the affiliated NFs at least 14 days before it is to take effect. Updated ITU Competition Rules will be posted on the ITU website (www.triathlon.org).

B CONDUCT OF COMPETITORS
