SHELTON

PICNIC KITS

Sturdy • Spacious • Weather-Resistant!

WITH WASHABLE POCKETS FOR PLATES, TUMBLERS AND CUTLERY

This Shelton Basket is woven with our selected hand-drawn splint and has a hardwood plywood cover. The basket has an attractive walnut finish that is not only smart-looking but also makes it weather-resistant.

On the inside of the basket there is a washable rubberized fabric pocket, easily removable, into which plates, tumblers and cutlery can be placed. When the cover is opened, a brass plated chain prevents it from falling back and tipping the basket. This basket is sturdily built and will give years of service.

Our Shelton Picnic Kits can be furnished complete with fittings. We can supply these baskets with service for four or six persons. Service includes attractive red plastic plates and tumblers and stainless steel knives, forks and spoons with red plastic handles.
