Abbreviations: AI/AN = American Indian or Alaska Native; A/PI = Asian or Pacific Islander; WISQARS = Web-based Injury Statistics Query and Reporting System.

* Data for 2021 are provisional and as reported through August 7, 2022.

[†] Homicide rates are per 100,000 persons.

[§] Suicide rates are per 100,000 persons.

[¶] Data for non-Hispanic multiple-race categories are not shown.

** Rate estimates based on fewer than 20 deaths are statistically unstable.

++ Suicide statistics exclude data for persons aged <10 years because intent for self-harm can be difficult to ascertain in young children.

§§ Death counts fewer than 10 and corresponding rates are suppressed for reasons of data privacy or disclosure prevention.
