## Preventing threats

Multi-layered real-time protection	✓	✓	✓
Web Protection	✓	✓	✓
Anti-phishing	✓	✓	✓
Browser Security	✓	✓	✓
File Guard	✓	✓	✓
Behavior Blocker	✓	✓	✓
Anti-Ransomware	✓	✓	✓
Exploit prevention	✓	✓	✓
System manipulation prevention	✓	✓	✓
Application hardening	✓	✓	✓
Advanced Persistent Threat (APT) protection	✓	✓	✓
Fileless malware protection	✓	✓	✓
Targeted attack prevention	✓	✓	✓
Botnet protection	✓	✓	✓
False positives verification	✓	✓	✓
Protection exclusions/allow list	✓	✓	✓
Hourly automatic updates	✓	✓	✓
Device isolation/network lockdown	✓	✓	✓
Shutdown & uninstall prevention via password	✓	✓	✓
Windows Firewall monitoring and hardening	✓	✓	✓
Windows RDP attack detection	✓	✓	✓

## Finding and removing malware

Super-fast system scans	✓	✓	✓
PUP/unwanted programs detection	✓	✓	✓
Advanced threat remediation	✓	✓	✓
Safe quarantine of suspicious files	✓	✓	✓
Scan exclusions/allow list	✓	✓	✓
Scheduled scans	✓	✓	✓
Windows Explorer integration	✓	✓	✓
Command line interface	✓	✓	✓

Endpoint detection & response (EDR)

Suspicious behavior monitoring	On endpoint only	On endpoint and in cloud. High-confidence events only	On endpoint and in cloud. All confidence levels events
Incidents retention time	—	365 days	365 days
Raw log data retention time	—	0 days	30 days
Local detections on devices	✓	✓	✓
Quick allow/quarantine/block everywhere	✓	✓	✓
Device isolation	✓	✓	✓
Execution tree & timeline	—	✓	✓
MITRE ATT&CK TTP monitoring	—	✓	✓
Deep threat insights	—	✓	✓
Global view of incidents	—	✓	✓
Ransomware rollback	—	—	✓
Workspace-wide threat hunting	—	—	✓
Threat hunting to search for IoCs	—	—	✓
SOC/SIEM integration via Syslog	—	—	✓
Raw event data search	—	—	✓

Centralized management

Management Console	Simplified	Fully featured	Fully featured
Industry leading endpoint mirror view	✓	✓	✓
Web access & mobile app	✓	✓	✓
“Local only” management mode	✓	✓	✓
“Local & remote” management mode	✓	✓	✓
“Remote only” management mode	✓	✓	✓
Traffic caching relay devices (multiple)	✓	✓	✓
Incident investigation tools	✓	✓	✓
Forensics & audit logs	✓	✓	✓
Remote scans & quarantine	✓	✓	✓
Device isolation	✓	✓	✓
Device health & system overview	✓	✓	✓
Email notifications	✓	✓	✓
API push notifications via syslog or webhook	✓	✓	✓
Advanced reporting	✓	✓	✓
Logs and reports retention time	30 days	180 days	365 days
Protection policies for device groups	✓	✓	✓
Permission policies for user groups	✓	✓	✓
Granular permissions for individual users	—	—	✓
Maximum protection policies	10	10	Unlimited
Maximum permission policies	10	10	Unlimited
Maximum workspace managers	2	2	Unlimited

**Centralized management**

Application inventory	—	—	✓
Remote uninstall	—	✓	✓
System restore	—	✓	✓
Invite Emsisoft partners (MSPs) to manage workspace	✓	✓	✓
REST Web API for all features	✓	✓	✓

**Task automation & Windows Server features**

Scheduled scans	✓	✓	✓
Email notifications for relevant events	✓	✓	✓
Monitoring of file shares and connected storage	✓	✓	✓
Protection without logged in users	✓	✓	✓
Silent mode/gaming mode	✓	✓	✓
Windows Server OS supported	—	✓	✓
Active Directory integration	—	—	✓
Automatic detection of new devices	—	—	✓
Remote deployment through relay devices	—	—	✓

**Dedicated Emsisoft benefits**

Money back guarantee	✓	✓	✓
Malware removal assistance	✓	✓	✓
Certified protection	✓	✓	✓
Privacy conscious design	✓	✓	✓
Email & live chat support	✓	✓	✓
Skip-the-line priority support	—	—	✓
Call-back service (8am-9pm ET)	—	—	✓
