

Cedar Bungalow

Kids love tree houses, because it gives them the chance to explore and imagine great stories. It's like a hide out on the playground. Kids can hide inside the tree trunk or run up the stairs to the deck. Once on deck, they can look over all of the playground, wave to their parents and call to their friends. Children can take the Twisty Turbo Slide all the way down, then run back up to the hide-a-way Bungalow. Once inside, they can still look out through the play house windows. Or they can sit and tell each other stories about make-believe adventures. Outside, they can swing on the swing set that has two belt swings. The swings can be changed to two toddler bucket swings. We have many additional swing sets that would make great additions to your park. Adults are more concerned with the practical aspects, such as building the treehouse, safety, and maintenance, as well as fun. At The 4 Kids, the experts have answers that will please concerned adults. Strict safety standards and high quality construction ensure that everyone is as secure as they are happy. This tree house doesn't have any doors, so no worries about pinched fingers. GFRC is a low maintenance product, as it can resist the harsh weather conditions. We also offer wood sealant for the deck, stairs and tree house. We want your tree house to last as long as your park. Make your park the one children want to go to over and over again.

The 4 Kids was born out of a desire to create high quality, one-of-a-kind park shelters and play environments that effectively appeal to children's natural curiosity and imagination.

All of our products are custom designed to work perfectly with your unique playground. Let us know how we can meet your specific needs by contacting our knowledgeable design specialists, today.
